FOREWORD

To analyze and describe the permanently valuable records of the Federal Government preserved in the National Archives Building is one of the main tasks of the National Archives. Various kinds of finding aids are needed to facilitate the use of these records.

The special list describes in detail the contents of certain important records series. Its form and style are not fixed but vary according to the nature of the records to which it relates. Its distinguishing characteristic is that it goes beyond the general description contained in a record group registration statement and a preliminary inventory and describes records in terms of individual record items.

In addition to lists and other finding aids that relate to particular record groups, the National Archives publishes some that give an overall picture of materials in the custody of the Archivist and some that cover records in the possession of other agencies. A comprehensive Guide to the Records in the National Archives (1948) and a brief guide, Your Government's Records in the National Archives (revised 1950), have been issued. A comprehensive guide devoted to one geographical area--Guide to Materials on Latin America in the National Archives (1961)--has been published. Forty-four Reference Information Papers, which analyze records in the National Archives on such subjects as transportation, small business, and the Middle East, have so far been issued. Records of the Civil War have been described in Guide to Federal Archives Relating to the Civil War (1962), those of World War I in Handbook of Federal World War Agencies and Their Records, 1917-1921 (1943), and those of World War II in the two-volume guide, Federal Records of World War II (1950-51). Many bodies of records of high research value have been edited by the National Archives and reproduced on microfilm as a form of publication. Positive prints of some 25,000 rolls of this microfilm, many of which are described in the List of National Archives Microfilm Publications (1961), are available for purchase.

INTRODUCTION

The General Land Office, established as a bureau of the Department of the Treasury and later transferred to the Department of the Interior, was engaged chiefly in the survey, management, and disposal of public lands. Although many of its functions were strictly legal and administrative in character, the surveying and mapping of the public lands were among its most important activities.

Federal land administration began with an ordinance passed by the Continental Congress on May 20, 1785, which directed that surveyors should divide the "western territory" into townships 6 miles square.¹ The ordinance also provided for the appointment of a Geographer of the United States and a surveyor from each State. The Geographer was to transmit the original plats of survey for the land to the Board of Treasury.

The first public surveys were made by Government surveyors under the direction of Thomas Hutchins, Geographer of the United States, in "The Seven Ranges" of townships in what is now eastern Ohio.² Work in the field began late in September 1785, but progress was delayed by a constant threat from the Indians and the surveys were not completed until the summer of 1787.³ The final notes and plats and a general plan of the Seven Ranges were submitted to the Board of Treasury in New York City in July 1788.⁴ Hutchins' only other contribution to Federal surveying was his work on the exterior lines of the Ohio Company's Purchase, which was completed after his death in 1789 by two surveyors who had worked with him on the Seven Ranges.⁵ Because public land surveying progressed so slowly, an economy-minded Congress turned its attention to surveying by private land companies.⁶

Federal surveying was not resumed until after passage of a new land act (1 Stat. 464) in 1796.⁷

The act "providing for the Sale of the Lands of the United States, in the territory northwest of the river Ohio, and above the mouth of the Kentucky river" directed that there be appointed a Surveyor General who would be responsible for engaging surveyors as deputies and for surveying and describing the land, making and recording plats of survey, and sending copies of the plats to places of sale and to the Secretary of the Treasury.

The first Surveyor General, Rufus Putnam, was appointed by President Washington to proceed with the survey of public lands northwest of the Ohio River. In conducting the surveys Putnam was practically independent of any department of the Government. The Secretary of the Treasury managed the sales; the Secretary of War was responsible for bounty land warrants; and the Secretary of State issued patents.⁸

By May 1800 Putnam reported that he had completed nearly two books of plats, each containing 176 townships, one book to be retained and one to be sent to the Secretary of the Treasury.⁹ From the notes and other records submitted to his office Putnam compiled general plats, one for each of the land offices at Cincinnati, Chillicothe, Marietta, and Steubenville where sales were to be opened. He also compiled a map showing lands south and east of the Greenville Treaty Line and, later, one showing all of the new State of Ohio.¹⁰

In 1803 Jared Mansfield was appointed by President Jefferson to succeed Putnam.¹¹ Other Surveyors General were appointed and new land offices were opened as the need arose in areas farther west and south.

By an act of Congress approved April 25, 1812 (2 Stat. 716), the General Land Office was established in the Department of the Treasury to superintend and execute transactions respecting public lands and other lands patented or granted by the United States--functions that formerly had been performed by several departments. The Commissioner of the General Land Office was responsible for receiving returns of public land surveys from

the Surveyors General, issuing and recording patents, and auditing and settling all public accounts relative to the public lands. He was given custody of the seal of office and of all records, books, and papers relating to the public lands that were in the offices of the Secretary of State, the Secretary and Register of the Treasury, and the Secretary of War.

The Surveyors General continued to operate as independent officers until the reorganization of the General Land Office by an act of Congress approved July 4, 1836 (5 Stat. 107). The act provided for the appointment of principal clerks, one each for private land claims, public lands, and surveys. The duty of the principal clerk of surveys was to direct and superintend the making of surveys, the work being done through the offices of the Surveyors General. Thus the authority of the General Land Office was extended over the Surveyors General, who had previously operated independently in applying the prescribed principles of surveying in their own districts.¹²

In 1849 the General Land Office was transferred from the Treasury Department to the newly created Department of the Interior (9 Stat. 395). The functions of the Office were not greatly affected by the transfer.¹³ The Commissioner, under the Secretary of the Interior, was to perform "all executive duties appertaining to the surveying and sale of the public lands of the United States, or in anywise respecting such public lands, and also such as relate to the private land claims, and the issuing of patents for all grants of land under the authority of the Government" (Rev. Stat., Sec. 453, 1873-75).

The surveying of public lands continued to be an important activity of the General Land Office. By 1875 there were 17 surveying districts, each under the direction of a Surveyor General, with a corps of assistants and deputies through whom the surveys were made and reported to the Office. There were also 90 land districts, each with an office conveniently located for the sale or other disposal of public lands. The General Land Office was subdivided into divisions designated by letters from "A" to "N," with a principal clerk in charge of each division. Transactions of subordinate offices in the field were reported to the proper division at regular intervals.¹⁴

Division E, under the supervision of a principal clerk of surveys, had charge of all work relating to

public surveys, including the issuance of instructions to Surveyors General and the examination of contracts for surveys by deputy surveyors. All survey returns were referred to the Division for examination as to correctness, approval, and filing. The Division maintained all records and correspondence relating to Indian, military, and other reservations. Matters pertaining to the establishment of boundary lines, by astronomical surveys, between the States and Territories of the United States were also referred to the Division. The principal draftsman of the Division E supervised the drafting or copying of plats of surveys, compiled and prepared the official map of the United States, and had custody of all plats and field notes.¹⁵

The scope of Federal surveying was more definitely defined in the 1907 report of the Commissioner.¹⁶ The Division of Public Surveys (Division E) was made responsible for all work relating to the public land surveys under the rectangular system, including the survey and subdivision of Indian reservations for allotment purposes and of all ceded Indian lands in preparation for their opening to the public; the subdivision for disposal of all abandoned military reservations; and the survey of all fragmentary parts of the public domain, namely, islands, isolated tracts, mission lands, donation claims, private land claims, townsites, and certain lands in Alaska. The Division was also made responsible for the establishment of boundary lines, by astronomical determination, between States and Territories and the survey of boundaries of national parks and Indian reservations.

According to the same report, the most important functions of the Drafting Division (Division L) were to compile and engrave maps of the United States and of numerous public land States and Territories and to plat townships and lesser subdivisions.¹⁷ The Division prepared maps, diagrams, and tracings for official use and made copies of plats and diagrams, upon request, for use by the public. It had custody of all official field notes of surveys of the public domain and of the original and photolithographic copies of plats and maps relating thereto.

From the early days of public land surveying surveys had been executed by deputy surveyors working under contracts made through the offices of the Surveyors General.¹⁸ In 1910 Congress authorized a more direct system whereby the work of surveys and resurveys in the field was carried on by cadastral engineers under the immediate di-

rection of the Commissioner of the General Land Office.¹⁹ The result was a higher quality of work at a lower cost. This new system led to the development of the Field Surveying Service, under the direction of a Supervisor of Surveys, in which the work was carried on by highly technical personnel including surveyors, cadastral engineers, transitmen, and draftsmen.²⁰ While the actual work of surveying the public lands was performed by the Field Surveying Service, the offices of the Surveyors General handled most of the related office work. They received applications for surveys and resurveys, approved the returns of the surveys, transcribed the field notes, and prepared the plats. They were also the custodians of the original records of survey, furnishing certified copies of them upon request. They also furnished general information pertaining to surveying. The Surveyors General were directly responsible to the chief clerk in Washington. The staff of each office usually included a chief clerk, a chief draftsman, and clerical assistants.²¹

As the West was settled the fertile lands of the public domain passed into private ownership. There was thus a gradual reduction of work in the General Land Office, and by 1925 a reorganization became necessary. The 12 offices of the Surveyors General were abolished; 42 of the 84 land offices were closed; and the Washington office was reorganized.²² The two divisions formerly responsible for surveying and drafting were consolidated into one division, which handled all matters relating to surveys, resurveys, cartographic drafting, and mapmaking.²³ On July 1, 1925, administration of the activities of the Surveyors General and the necessary personnel, records, and other equipment were transferred to the surveying service of the Cadastral Engineering Service, under the jurisdiction of the Supervisor of Surveys.²⁴

The cadastral engineering field operations, under the administrative control of the Commissioner of the General Land Office, were conducted by the Supervisor of Surveys with headquarters at Denver, Colo. A field office, under the Associate Supervisor of Surveys, was maintained in Washington. The 12

public survey offices were scattered throughout the 11 Western States and Alaska. Cadastral surveying operations, including surveys and resurveys, were carried on by groups within these States--as well as in other States--when the need arose.²⁵ Other cadastral engineering activities included the survey and allotment of Indian reservations, cooperative surveys with Government agencies whose activities were based on or directly related to public lands, surveys made at the request of other Government agencies (such as revised boundaries of national parks), and field investigations of erroneous and fictitious surveys.

In 1945 plans were completed for the reorganization of the Cadastral Engineering Service to meet postwar demands for surveys. Headquarters for the work was transferred from Denver to Washington.²⁶

In accordance with the President's Reorganization Plan No. 3, effective July 16, 1946, the General Land Office was consolidated with the Grazing Service in the Department of the Interior to form the Bureau of Land Management.

The records described in this list constitute four closely related series, three of which are records of the Division of Surveys (Division E) of the General Land Office. The fourth series is composed of published records issued by the offices of the Surveyors General and the General Land Office, usually without reference to a division. The records in the four series date from about 1790 to 1946. Most of them were transferred to the National Archives in 1941 and 1952, and a few in 1954, 1955, and 1959. Like other records of the General Land Office, they are a part of Record Group 49, Records of the Bureau of Land Management. Their volume is about 90 cubic feet.

The four series consist of (1) manuscript and annotated maps unofficially referred to as the "Old Map File," (2) boundary survey maps and diagrams, (3) field notes and related records known as "Old Case 'F' File," and (4) published records. The first and last series relate largely to the progress of surveys and the disposal of lands in the public land States or Territories, and the second and third series relate largely to the survey of their boundaries. The third series includes notes not only for the boundary survey maps in the second series but also for some of the manuscript maps of the first series.

INTRODUCTION

Although most of the records were prepared in the General Land Office or in the offices of the Surveyors General before or after they were under the jurisdiction of the General Land Office, a few were acquired from other Government agencies or copied for official use. Several of the manuscript and annotated maps were transferred to Division E from other divisions of the General Land Office.

Not all the cartographic records of Division E are described in this list. Among those not described are townsite plats, plats of private land claims found in volumes, and field notes and plats of the township surveys for several of the public land States. There are also cartographic records for other divisions of the General Land Office in the National Archives, including canal and reservoir maps, railroad right-of-way and land grant maps, annotated plats of Indian lands, and mineral land plats. Some unsegregated cartographic records may be found among the textual records of the

General Land Office. There are also related cartographic records among the records of the Bureau of Indian Affairs (Record Group 75) and of the Office of the Chief of Engineers (Record Group 77).

This list was prepared under the direction of Herman R. Friis when he was Chief of the Cartographic Division of the National Archives. Preliminary descriptions of many of the maps listed were prepared by Charlotte M. Ashby and James B. Rhoads. Assistance was also furnished by the staff of the Interior Branch, especially by Richard S. Maxwell and Gerard E. Hasselwander, who made many searches for related textual records. Valuable suggestions were given on the introduction by Oliver W. Holmes, then Chief Archivist of the Social and Economic Records Division. The introduction and the list were reviewed by Donald B. Clement, Cadastral Engineering Staff Officer of the Bureau of Land Management.

Method of Describing Maps in This List

Maps and other cartographic records are described in Parts I, II, IVA, and IVC in entries consisting of the following elements: (1) title, which often includes the name of the surveyor or compiler and the date of the survey or compilation; (2) date of publication or compilation and name of agency, if not included in the title; (3) statement of approval, certification, or signing, and date; (4) type of map, i. e., manuscript, annotated, or published; (5) scale; (6) dimensions; and (7) an explanation of the annotations and remarks about special characteristics.

General rules and terms used in describing maps, plats, diagrams, and related cartographic records in this list follow.

Title. -- The title that appears on the face of the record has been copied and enclosed in quotation marks, with omissions indicated by an ellipsis. Other information has been added where necessary and enclosed in brackets if it is within the quoted material. Titles or parts of titles not in quotation marks have also been supplied by the compiler of the list. Raised letters and punctuation marks have been moved to their normal positions, and periods used in such expressions as "2^d" or "3^rd" have been omitted. Other punctuation marks have been copied as they appear in the title and none have been added.

Terms. -- The term "certified" is used only if it appears on a map or other record with an official signature and date of certification. A map may be certified in any one or more of the following respects: (1) that it is correctly compiled from other maps, official data, or given sources; (2) that it is strictly conformable to the field notes of the survey;

(3) that it is a correct map; (4) that it is a true and correct copy of the original map; or (5) that it shows certain information correctly. Sometimes a map may have two or more certifications. If a map is certified as a copy, this is noted at the end of the description without the date of certification. The term "approved" is used if a statement such as "This map . . . being conformable to the field notes of the survey thereof on file in this office is hereby approved" (or merely the word "approved") appears on a map or plat with the signature of a Surveyor General or a Commissioner of the General Land Office and the date of approval.

The term "signed," with the name of the signing official in quotation marks, is used if the map bears an authentic signature but does not include a statement of certification or approval.

Types of maps. -- A "manuscript" map is a record made with pencil, ink, watercolors, or some similar hand-applied medium, usually on paper, tracing cloth, or tracing paper. Although a manuscript map may be an "original drawing," a copy, or a tracing, this information is not given in the listing unless it is noted on the map. An "annotated" map is a published or photoprocessed map that includes information added by hand, usually in ink, pencil, crayon, or watercolors. In this list published or photoprocessed maps are also considered annotated maps if they bear handwritten signatures or have labels pasted on the face or back giving additional information, such as correspondence file numbers or exhibit numbers. Sets of maps are kept together even though some maps are annotated and others are not. A "photoprocessed" map is one reproduced photographically. Blueprints and photostats are identified as such, but ozalids and other

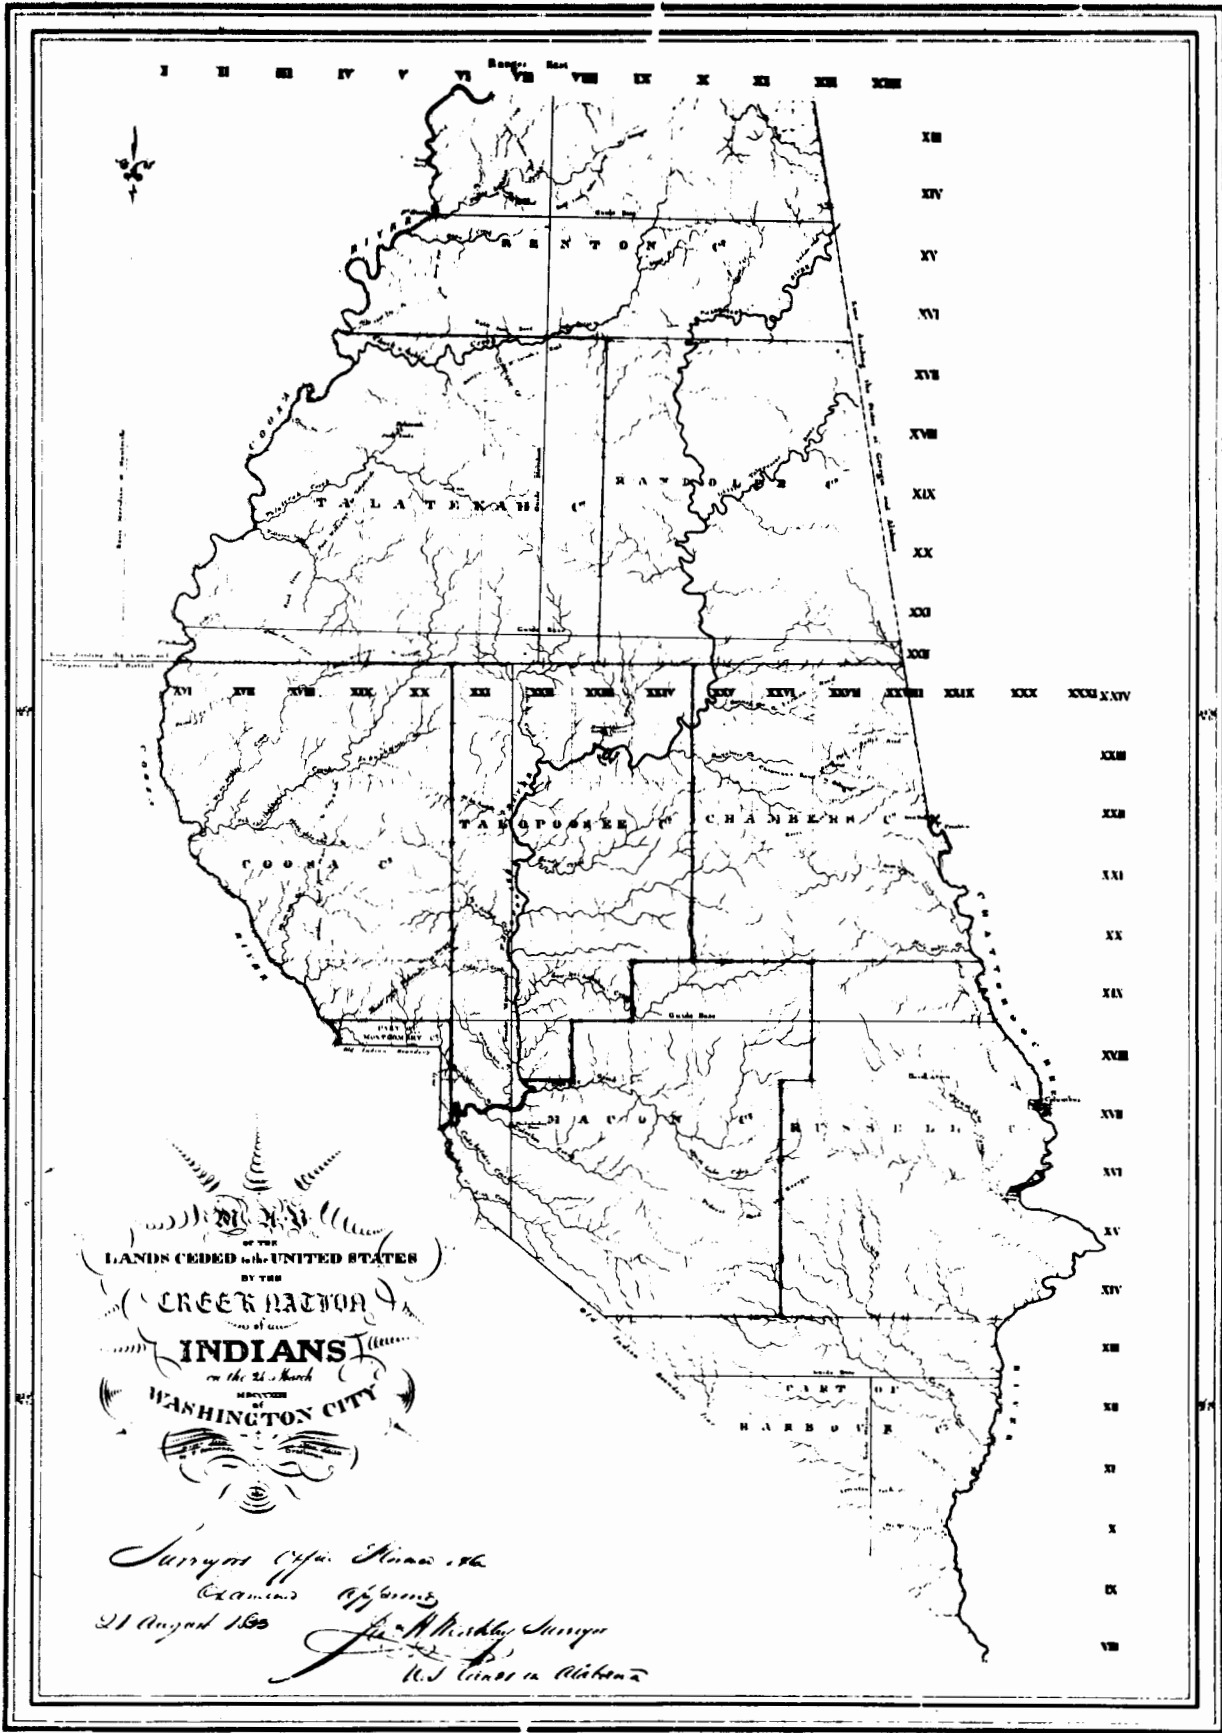

photographically reproduced records are referred to as photoprocessed. A "published" map is one that is issued for general distribution, either free or at a price.

Scale. -- The scales given in the list usually appear on the maps. If both the natural scale and the "inch to the mile" scale are given, the latter is used. If no scale is given, the compiler has computed the scale whenever possible.

Dimensions. -- The dimensions given for each map are to the edge of the sheet measured to the nearest half inch unless otherwise stated. The vertical dimension is given first. If an oversized map has been cut into sections suitable for filing, the overall measurement is given and number of sections is enclosed in parentheses.

Annotations and characteristics. -- Many of the maps in Part I bear annotations added in the General Land Office, some of which have not been explained. The interpretation of annotations may not be accurate or at least may not carry the full meaning intended by the person who annotated the map. Special characteristics of a map, unusual information, cross-references to other maps, or documentary citations are also given at the end of the entry.

Spelling. -- Place names in unquoted titles conform to the spelling on General Land Office published maps and private land claim plats. Misspelled words in a quoted title are indicated by sic or the correct spelling in brackets. Indian Land Cession in the United States, compiled by Charles C. Royce (Washington, 1899), has also been used in determining some of the spellings of Indian names.

LIST OF CERTAIN CARTOGRAPHIC RECORDS OF THE
GENERAL LAND OFFICE

PART I. MANUSCRIPT AND ANNOTATED MAPS

Most of the records described in this series of manuscript and annotated maps, sometimes referred to as the "Old Map File," were transferred to the National Archives from the Division of Surveys (Division E) of the General Land Office in 1941. The remainder were transferred in 1952. The records date from about 1790 to 1946 and include maps of the United States and the public land States or parts of them, showing their development and the disposal of public lands. Also included are a few maps of particular areas or reservations within a few of the Thirteen Original States, Maine, Kentucky, and Texas; there is one map of Hawaii.

Among these records are maps showing unsurveyed public lands; the progress of public surveys; railroad land-grant limits; State, county, land district, and other boundaries; private land claims; grants and purchases; Indian and military reservations; forest reserves; national forests and parks; grazing districts; mineral lands; mining districts; mining claims and leases; reclamation projects; early settlements; the locations of cities, towns, roads, and railroads; and other information peculiar to individual localities. There are also maps and plats of individual military reservations, Indian reservations, forest reserves, and national forests, as well as boundary surveys of some of the reserves.

The earliest maps in this series represent surveys made in Ohio under the direction of Thomas Hutchins, Geographer of the United States, and Rufus Putnam, the first Surveyor General. Some were compiled from the records on file in Putnam's office. Most of the early maps represent surveys made by deputy surveyors. Many are signed by a Surveyor General of a State or Territory or by the Commissioner of the General Land Office, and many are certified as being conformable to the original field notes of the survey. Several of the maps were prepared to accompany the annual reports of a Surveyor General or of the Commissioner of the General Land Office. Although most of the maps were prepared in the offices of the Surveyors General or in the General Land Office, a few were acquired from other agencies for official use.

Many of the maps prepared in the General Land Office cover entire States or the whole United States. The complete title and the name of the compiler or

draftsman have not been given for these maps nor for the State maps published by other Government agencies and annotated in the General Land Office. Many of the annotations added to the published maps cannot be explained with certainty. Reference has been made to other maps and to related textual records to ascertain as nearly as possible the meaning of the annotations.

Maps of the United States or parts of it described in this series of manuscript and annotated maps are arranged by map number under the United States. The State maps and maps of smaller areas are arranged alphabetically by name of State and thereunder by map number. In both cases the maps are arranged in a chronological sequence to show the progress of surveying and mapping activities within the public land States.

United States

1. French map of area between 29° and 45° N. Latitude and 87° and 95° W. Longitude showing the Mississippi River and its tributaries and smaller rivers east of the Mississippi flowing into the Gulf of Mexico. n. d. Manuscript on paper. Large scale. 91 x 39 1/2 (3 sections). Names of forts and settlements are shown along the rivers and Gulf of Mexico.

2. "Map Exhibiting the position of the Lands occupied by Indian Tribes in Amity with the United States: and also The Lands Ceded to the United States, by Treaty with various Indian Tribes." E. Gilman, Draftsman. Annotated published. 1 inch to ca. 32 miles. 45 1/2 x 75 (3 sections). The title quoted above and annotations as indicated in title have been added to a published map entitled "United States of America: by H. S. Tanner, 1839." Indian agencies and military posts are also noted.

3. "Map of the Hydrographical Basin of the Upper Mississippi River From Astronomical and Barometrical Observations, Surveys and Information. By J. N. Nicollet. Made in the Years 1836, 37, 38, 39 & 40, Assisted in 1838, 39 & 40, by Lieut. J. C. Fremont of the Corps of Topographical Engineers . . . Published in 1842 by order of the U. S. Senate." Annotated published. 1 inch to ca. 10 miles. 76 1/2 x 62 (4 sections). Annotated to show Sioux Indian reserves, Sioux and Chippewa

United States, continued

cessions, and "Dividing line between the Sioux and Chippewas . . . 1825."

4. "Colton's Map of the United States of America Including Canada and a large portion of Texas: Showing the Base, Meridian and Township Lines of the U. S. Surveys The lands allotted to the Indian Tribes west of the Mississippi, the Various Internal Improvements &c. Compiled from surveys at the United States Land Office, and various other authentic sources By J. Calvin Smith . . . Published by J. H. Colton . . . New York, 1853." Annotated published. 1 inch to ca. 25 miles. 65 x 81 (4 sections). Annotated apparently to show lands affected by Indian treaties. No key is given for numbers added to map.

5. "Map of the Territory of the United States From the Mississippi River to the Pacific Ocean; Ordered by the Hon. Jeff'n Davis, Secretary of War To accompany the Reports of the Explorations for a Railroad Route . . . Compiled from authorized explorations and other reliable data by Lieut. G. K. Warren, Topl. Engrs. in the Office of Pacific R. R. Surveys, War Dep. . . in 1854 and of Capt. A. A. Humphreys. Topl. Engrs. 1854-5-6-7-8." Annotated published. 1 inch to ca. 48 miles. 43 1/2 x 47. Annotated to show boundary lines of States and Territories, and Indian lands in Kansas, Indian Territory, and Texas.

6. "Map of the Territory of the United States from the Mississippi River to the Pacific Ocean . . . Compiled from authorized explorations and other reliable data . . . 1854-5-6-7-8." Annotated published. 1 inch to ca. 48 miles. 43 1/2 x 47. Annotated to show railroads and proposed railroad routes, and boundary line of States and Territories and area within each.

7. "Map of the Public Land States and Territories [showing the extent of public surveys] . . . 1864." Published by the GLO. Annotated published. 1 inch to 60 miles. 29 x 46. Annotated with numbers and letters covering surveyed areas. This is probably an earlier index to plat books or order in which public lands were surveyed.

8. "Map of the Public Land States and Territories [showing the extent of public surveys] . . . 1865." Published by the GLO. Annotated published. 1 inch to 60 miles. 29 x 45 1/2. Annotated to show boundary lines of States and Territories, Indian lands and lands in Indian Territory ceded to the United States in 1866, and land districts and locations of local land offices in other areas.

9. "Map of the Public Land States and Territories [showing the extent of public surveys] . . . 1865." Published by the GLO. Annotated published.

1 inch to 60 miles. 28 1/2 x 45. Annotated to show boundary lines of States and Territories, land districts and locations of local land offices, and acts from 1863 to 1868 by which the Territories of Idaho, Montana, and Wyoming were created.

10. "Map of the United States and Territories, Showing the extent of Public Surveys and other details . . . 1868." Published by the GLO. Annotated published. 1 inch to 60 miles. 29 x 56 1/2. Annotated to show degrees of latitude and longitude along State and Territorial boundaries, and with information pertaining to surveys as late as 1870. Part of map is missing.

11. "Map of the United States and Territories, Showing the extent of Public Surveys and other details . . . 1871." Published by the GLO. Annotated published. 1 inch to 60 miles. 30 x 58 1/2. Annotated to show railroad routes some of which are apparently proposed.

12. "Map of the United States and Territories, showing the extent of Public Surveys and other details . . . 1871." Published by the GLO. Annotated published. 1 inch to 60 miles. 28 1/2 x 55. Annotated to show proposed railroad routes from Duluth on Lake Superior to Tacoma and Vancouver, Wash.

PART II. BOUNDARY SURVEY MAPS AND DIAGRAMS

The cartographic records described in this series were transferred to the National Archives in 1952 from the Branch of Surveys, Division of Cadastral Engineering, Bureau of Land Management (former Division E of the General Land Office). They date from about 1790 to 1926 and represent the official surveys and resurveys of boundaries of the public land States or Territories and Indian land boundaries that later became State boundaries. Also included in this series are a few maps of the boundaries of the United States with the British possessions, Texas, and Mexico, and a map showing the line between New York and the territory annexed to Pennsylvania. Maps apparently used as exhibits in court cases and maps and diagrams pertaining to boundary investigations, disputed boundaries, and connections of surveys along boundary lines are filed with the boundary survey maps.

A few of the earlier maps represent surveys made under the direction of a Surveyor General. Most of the State boundary surveys were made by surveyors under contract with the Commissioner of the General Land Office, and the maps were approved by the Commissioner as being conformable to the field notes of the survey. Some of the maps were copied from official surveys of the Bureau of Indian Affairs and the Bureau of Topographical Engineers. The maps are arranged numerically by file number.

State and Territorial Boundaries were often designated as the "north boundary of Wyoming Territory" or the "Eastern boundary of the State of California." The name of the adjacent Territory or State has usually been added in brackets and included in the index. In most cases the boundaries are indexed, under States, as east, north, south, or west boundaries.

1 (a). Map of the "Boundary Line Between the States of Alabama & Florida. Surveyed in the years 1799 and 1800 by A. Ellicott. Annotated to emphasize parts of the boundary line and to show monuments, trails, camps, and stations along the boundary.

77. Missing.

78. "Diagram Showing the Discrepancy between the position of the 120th Meridian West of Greenwich as determined by Daniel G. Major in August 1868 and the California State Line as surveyed in 1863 under direction of State Sur. Gen. of Cal. and Butler Ives Com. for Nevada . . . Prepared by L. Boss, Clk. Sur. Div." Manuscript on

paper. 1 inch to 1 mile. 27 x 20. Attached label marked "(About 1868)."

79. Diagrams showing connection of fractional townships and sections in California and also a few fractional townships and sections in Nevada along part of the California and Nevada State boundary line. Three diagrams, each certified by the U. S. Surveyors General for California and Nevada as correctly compiled from the plats on file in their respective offices. Manuscript on tracing cloth. 1 inch to 1 mile.

- (1) From T. 1 N., R. 32 E., to T. 7 S., R. 40 E., Mt. Diablo Meridian. Approved January 13, 1892. 71 x 29.
- (2) From T. 31 N., R. 1 E., to T. 25 N., R. 7 E., San Bernardino Meridian. Approved January 11, 1892. 67 x 21.
- (3) From T. 15 N., R. 17 E., to T. 12 N., R. 20 E., San Bernardino Meridian. Approved January 19, 1892. 36 1/2 x 21.

80. "Map of the Eastern Boundary of the State of California [between California and Nevada] being that Portion of the 120th Degree of Longitude West of Greenwich lying between the 42nd & 39th Degrees of North Latitude. As surveyed under contract dated 20th July A. D. 1872 . . . by Alexey W. von Schmidt U. S. Astronomer & Surveyor." Approved May 1, 1873. Manuscript on paper. 1 inch to 2 miles. 118 x 25 (2 sections).

81. "Map of the Eastern Boundary of the State of California [between California and Nevada] Being that Portion lying between the intersection of the 120th degree of Longitude West of Greenwich with the 39° North Latitude and the intersection of Longitude 117° 12' 15" West of Greenwich with 37th degree North Latitude, -As surveyed under Contract dated 20th July 1872. . . by Alexey W. Von Schmidt, U. S. Astronomer and Surveyor." Approved January 30, 1874. Manuscript on paper. 1 inch to 2 miles. 130 x 20 (3 sections).

82. "Map of the Eastern Boundary of the State of California [between California and Nevada] Being that Portion lying between the intersection of Longitude 117° 12' 15" West of Greenwich with the 37th degree North Latitude and the intersection of the 35th degree of North Latitude with the Center of the Channel of the Colorado River of the West in Longitude West of Greenwich. As surveyed under Contract dated 20th July 1872. . . by Alexey W. Von Schmidt U. S. Astronomer and Surveyor." Approved January 30, 1874. Manuscript on paper. 1 inch to 2 miles. 130 x 20 (3 sections).

83. Plats of the "Traverse line between [the State of] Georgia & Florida [Territory], Commencing at the Junction of the Chatahoochee and Flint rivers and run Eastwardly to Ellicotts Monument on the River St Mary's.

Manuscript on paper. 1 inch to ca. 3 miles. 25 x 37. Map shows that part of the boundary line between the State of Tennessee and Mississippi Territory along 35° N. Latitude between the old Cherokee and Chickasaw Boundary Lines. The area in Mississippi Territory shown on the map is now part of the State of Alabama.

91. "Map of the Boundary Line between [the State of] Kansas & [the Territory of] Colorado established and marked . . . by John J. Major, U. S. Astronomer & Surveyor, 1872." Approved December 31, 1872. Manuscript on paper. 1 inch to 2 miles. 117 x 24 1/2 (2 sections).

92. Volume bearing title on backstrip: "Base Line between Kansas & Nebraska & Connections of Surveys Across Missouri River in Kansas, Nebraska, Iowa & Missouri." Manuscript plats. Approved or certified by the Surveyor General of Kansas and Nebraska, 1855-59. 71 plats, bound in the volume as follows:

- (1) "Plat[s] of the survey of that portion of the Base line or boundary between the Territories of Kansas and Nebraska which starts from the intersection point of the 40° North latitude with the Missouri river . . . West 108 M. to the intersection point of the Base by the sixth prinl. Meridian . . . executed by John P. Johnson, D. S. in Novr. & Decr. 1854 . . ." Approved January 12, 1855. Manuscript on paper. 1 inch to 1/2 mile. 6 plats, each 15 x 19. Interfiled with (2).
- (2) "Plat[s] of the re-survey of a portion of the Base line or Boundary between the Territories of Kansas and Nebraska on the parallel of 40° North Latitude from the Monument at its initial point on the bluff on the West bank of the Missouri River West ten Townships or Sixty miles . . . [and] from the Guide Meridian West Eight Townships, or forty Eight miles to the 6th Principal Meridian . . ." Executed by Charles A. Manners, Deputy Surveyor, in 1855 and 1856. Approved July 30, 1855, and September 16, 1856. Manuscript on paper. 1 inch to 1/2 mile. 7 plats, each 17 x 21. The position of Johnson's base line as run in 1854 is indicated on the plats by a blue dotted line.
- (3) Diagrams of the "Base Line between the Sixth Principal Meridian, and the First Guide Meridian West, as Surveyed by Charles A. Manners D. S. under his Con-

- tract No. 222, dated July 2, 1858 . . ." Certified October 26, 1858. 2 diagrams, each 15 x 19.
- (4) Diagrams of the "Base Line, between the First and Second Guide Meridians West, as surveyed by Nathan P. Cook D.S. under his Contract No. 274, dated April 29th 1859 . . ." Certified August 25, 1859. 2 diagrams, each 17 x 21.
- (5) Diagrams of the "Base Line" between the 2d and 9th guide meridians and west of the 9th guide meridian to the summit of the Rocky Mountains as surveyed by Jarret Todd and James Withrow under their contract dated June 10, 1859. Certified October 28, 1859. Manuscript on paper. 1 inch to 1/2 mile. 15 diagrams, each 17 x 21.
- (6) Plats showing "Connections of Surveys [across the Missouri River] in Kansas and Missouri, executed by C. F. Hopkins and J. R. Haddock Deputy Surveyors, under instructions of 8th June 1857." Certified October 24, 1857. Manuscript on paper. 1 inch to 1/2 mile. 12 plats, each 17 x 21.
- (7) Plats showing "Connections of Surveys [across the Missouri River] in Nebraska and Iowa [and in Nebraska and Missouri] executed by C. F. Hopkins and J. R. Haddock Deputy Surveyors under instructions of June 8th 1857." Approved December 31, 1858. Manuscript on paper. 1 inch to 1/2 mile. 27 plats, each 17 x 21.
93. Map and profile of the "North Boundary of Nebraska Latitude 43 North," between the State of Nebraska and Dakota Territory. Surveyed by Chauncey Wiltse, Astronomer and Surveyor, under contract dated June 24, 1873. Approved December 12, 1874. Manuscript on paper (bound). Map: 1 inch to 2 miles. Profile: horizontal, 1 inch to 2 miles; vertical, 1 inch to 400 feet. 8 sheets, each 17 x 20 1/2.
94. Map and profile of the "West Boundary of New Mexico. Longitude 32 West [of Washington]," between the Territories of New Mexico and Arizona. Surveyed by Chandler Robbins, Astronomer and Surveyor, under contract dated April 12, 1875. Approved March 27, 1876. Manuscript on paper (bound). Map: 1 inch to 2 miles. Profile: horizontal, 1 inch to 2 miles; vertical, 1 inch to 1,000 feet. 13 sheets, each 21 1/2 x 15. Bound in the same volume are astronomical observations entitled "Mean Places of stars adopted for determination of Latitude of stations on the Boundary Line between Arizona and New Mexico." Dated 1875. Manuscript. 109 p. 10 1/2 x 7 1/2.
95. Map and profile of the "South Boundary of Wyoming Latitude 41° North," between the Territories of Wyoming and Colorado and Utah. Surveyed by A. V. Richards, Astronomer and Surveyor, under contract dated September 13, 1872. Approved January 31, 1874. Manuscript on paper (bound). Map: 1 inch to 2 miles. Profile: horizontal, 1 inch to 2 miles; vertical, 1 inch to 400 feet. 12 sheets, each 17 x 20.
96. Map and profile of the "West Boundary of Wyoming Longitude 34 West [of Washington]," from the 41st to the 45th Parallels of N. Latitude, between the Territories of Wyoming and Utah, Idaho, and Montana. Surveyed by A. V. Richards, Astronomer and Surveyor, under contract dated May 29, 1873. Approved November 27, 1874. Manuscript on paper (bound). Map: 1 inch to 2 miles. Profile: horizontal, 1 inch to 2 miles; vertical, 1 inch to 400 feet. 10 sheets, each 21 1/2 x 16.
97. "Map of the Survey of the North Boundary of Wyoming Territory [between the Territories of Wyoming and Montana]. Made in the years A. D. 1879 and 1880. By Rollin J. Reeves, U. S. Astronomer and Surveyor. Under his contract . . . bearing date April 18th 1879." Manuscript on paper (bound). 1 inch to 2 miles. 7 sheets: No. 1, 20 1/2 x 28; Nos. 2-7, approximately 20 1/2 x 26.
98. Plats of fractional Tps. 2 to 11 N., R. 5 W., St. Stephens Meridian, Alabama, showing distance on the State line between Alabama and Mississippi as resurveyed in 1823, and township and section lines as originally surveyed or retraced in 1847-48. Each plat is noted as "Copied at the General Land Office from the plat of Survey there on file--and forwarded with Commissioner's letter of Augst. 30th 1853." Manuscript on paper. 1 inch to 1/2 mile. 10 plats, each approximately 16 x 20. Plat of T. 2 N., R. 5 W., noted in blue crayon ". . . See letter fr R & R St. Stephens Ala. July 26, 1850."
99. Diagram showing fractional townships and sections along the Alabama and Florida boundary line from the Chattahoochee River, T. 7 N., R. 8 W., to the Perdido River, T. 6 N., R. 34 W., Tallahassee Meridian. Compiled from Perry's maps and field notes and from plats and field notes in the GLO. n. d. Manuscript on paper. 1 inch to 1/2 mile. 9 x 316 (5 sections). Includes notations under each township and references to field notes.
100. Diagrams showing the connection of township and section lines along the 7th standard Parallel North, being also the boundary line between North and South Dakota, from the Bois des Sioux River to the Missouri River with the exception of a few townships in the Sisseton and Wahpeton Indian Reservation. n. d. Manuscript on tracing cloth. 1 inch to 1/2 mile. 3 diagrams. No. 1, 15 1/2 x 40; No. 2,

17 x 30; and No. 3, 8 x 292.

101. Two maps of part of the northern boundary of the United States as designated by the Treaty of Ghent, 1814. For other maps of this boundary see records of the Department of State.

- (1) "No. 1 Map of the River Sainte Marie, Surveyed by order of the Honorable the Commissioners under the 6th and 7th articles of the Treaty of Ghent." Noted "A true Map of part of the Survey . . . (Signed) Peter B Porter [and] Anth: Barclay--Commissioners . . . J. Ferguson Surveyor to the Commissioners. Filed By order of the Board October 23rd 1826 . . ." Manuscript on paper. 1 inch to 1/2 geographical mile. 50 1/2 x 30. Marked "Copy."
- (2) Map of the boundary from St. Joseph Island to Little Manitou Island. Certified as "a true Map of part of the Boundary designated by the 6th Article of the Treaty of Ghent From actual Survey By order of the Board (Signed) Peter B. Porter [and] Anth: Barclay--Commissioners . . . William A. Bird [and] David Thompson--Surveyors." Manuscript on paper. 1 inch to 1 geographical mile. 29 1/2 x 51. Marked "Copy."

102. "Extract of Mapa de los Estados Unidos de Méjico, Lo Publican J. Disturnell . . . 1848." Manuscript on tracing cloth. 1 inch to ca. 70 miles. 20 1/2 x 20. Map shows boundary proposed by Mexico and boundary as claimed by the United States.

103. A series of maps prepared as a result of investigations along the Red River concerning the Oklahoma-Texas boundary dispute, most of which are identified as exhibits. For a report on the investigations see University of Texas Bulletin No. 2327: July 15, 1923--"Investigations on the Red River Made in Connection With the Oklahoma-Texas Boundary Suit. By E. H. Sellards, B. C. Tharp and R. T. Hill." (See Part IV C, No. 5 for related published maps.)

- (1) "Outline Map of Red River Through TS. 4 and 5 S., Rs. 13, 14 and 15 W., Indian Meridian, Oklahoma." Certified March 27, 1920, by Robert W. Livingston, U. S. Cadastral Engineer. Manuscript on tracing cloth. 1 inch to 1/4 mile. 32 x 77 1/2.
- (2) "Map showing Red River and Changes [in the vicinity of Allen Island] from 1866 to 1918." Certified August 27, 1921, by R. P. Draper, County Surveyor, Choctaw County Okla. Manuscript on tracing cloth.

1 inch to ca. 550 feet. 48 x 31 1/2. "Exhibit No. 36."

- (3) "Outline Map of Red River" from the 100th Meridian eastward to beyond the mouth of the Washita River in Tps. 7 and 8 S., R. 7 E., Indian Meridian, Oklahoma. 13 sheets, numbered 1, 2, 3a, 3b, 3b', 4a, 4b, and 5 through 9, and an unnumbered sheet of "Receivership Area." Each sheet certified by Robert W. Livingston or Albinus N. Kimmell, U. S. Cadastral Engineers, as a true delineation of the topographic features represented thereon. No. 1, certified August 22, 1921; others, certified August 30, 1921. Manuscript on tracing cloth. 1 inch to 1/2 mile. Sheets vary in size from 18 1/2 x 30 to 27 x 77 and 31 x 40. "Exhibit No. 37."
- (4) "Map of Double Cut Off Tps. 9 and 10 S., Rs. 24 and 25 E., L. M., McCurtain County, Oklahoma." n. d. Signed "Albinus N. Kimmell, U. S. Cadastral Engineer." Manuscript on tracing cloth. 1 inch to 1/4 mile. 18 x 24. "Ex. No. 44."
- (5) Copy of part of a map of Wichita County, Tex., showing surveys bordering on Red River. Certified February 18, 1889, as a true copy of the original sketch by R. F. Lockett filed in the General Land Office at Austin, Tex., July 20, 1861. Manuscript on tracing cloth. Large scale. 11 1/2 x 10. "Exhibit No. 52."

- (15) Sketches of "Dune Roses . . . & River Course Roses . . . for Upper of the Three Sections of Red River Within Boundary Zone . . ." n. d. Manuscript on tracing cloth. Large scale. 15 x 38. "Exhibit No. 76."
- (16) Contour map of the "Southern Portion of 'Big Bend' . . . Surveyed by E. H. Kimmell, U. S. Transit man. Supervision of Robert W. Livingston, U. S. Cadastral Engineer." Manuscript on paper. 1 inch to 330 feet. Contour interval, 2 feet. 18 x 30 1/2. "Ex. No. 77."
- (17) "Habit of Growth in Normal River Meanders (Ideal Sketch)" n. d. Manuscript on tracing cloth. Large scale. 13 x 11 1/2. "Ex. No. 78."
- (18) "Ecologic Map Showing Species of Trees, their Diameters, Elevation of Ground at Base, and their Location in Sections 1, 2, 3, 10, 11 & 12, Tp. 5 S, R. 14 W. and Section 35, Tp. 4 S, R. 14 W., Indian Meridian Oklahoma L. L. Janes, Ecologist [and] H. C. Cowles, Ecologist Data Supplied by Robert W. Livingston, U. S. Cadastral Engineer. Drawn by F. A. Paige." Manuscript on tracing cloth. 1 inch to ca. 1/16 mile. 26 x 59. "Ex. No. 79."
- (19) "Ecologic Map Showing Species of Trees, their Diameters, and Locations in Secs. 1 & 12 of Tp. 5 S. R. 14 W. and Secs. 6 & 7 of Tp. 5 S. R. 13 W. . . . L. L. Janes, Ecologist. Surveyed by A. N. Kimmell, U. S. Cadastral Engineer." Manuscript on tracing cloth. 1 inch to 1/16 mile. 19 x 31. "Ex. No. 80."
- (20) "Ecologic Map Showing ground elevations in Vicinity of Sample No. 6 L. L. Janes, Ecologist. Surveyed by A. N. Kimmell U. S. Cadastral Engr." n. d. Manuscript on tracing cloth. 1 inch to 2 chains. 24 x 13. "Ex. No. 81."
- (21) "Map Showing Composite Origin of the Alluvial Area in the 'Big Bend' Area by L. C. Glenn [with additional title] Supplemental Map of the Big Bend Area showing location of certain trees designated samples Nos. 6, 7, 8, 9, 15 and 1 elm not numbered." Dated January 5, 1921. "Note: -- As sketched in 1920, but showing area eroded in 1921 in Sec. 3, T. 5S., R. 14 W. . . ." Manuscript on tracing paper (mounted). 1 inch to 1/4 mile. 23 x 39 1/2. "Ex. No. 82." The number "82" is circled in pencil and "66" is added below.
- (22) "Development Map Red River Oil Field . . . Tps. 4 and 5 S., R. 14 W., Indian Meridian Oklahoma." Notation, dated April 27, 1921, "Surveyed for the Department of Justice by Robert W. Livingston U. S. Cadastral Engineer, under the direction of Arthur D. Kidder, Associate Supervisor of Surveys." Signed "William Spry," Commissioner of the GLO. Manuscript on tracing cloth. 1 inch to 330 feet. Sheet 1 "East half," 57 x 51. Sheet 2 "West half," 67 1/2 x 53.
104. "Texas and Oklahoma Boundary Fort Augur Area [located] September 3, 1924. Special Map [including cross sections and profiles] Red River-Adams Creek Cut-off as Laid Down Upon United States and Oklahoma Map Exhibit No. 64." Manuscript on tracing cloth. 1 inch to 500 feet. 61 x 38.
105. Maps of the Texas and Oklahoma boundary along the south bank of the Red River as surveyed by the Commissioners under the authority conferred by decree of the Supreme Court of the United States in the case of the State of Oklahoma, complainant, versus the State of Texas, defendant, and the United States, intervener, entered March 12, 1923.

19 manuscript maps, with Nos. 3 and 5 missing. (See Part IV, C. No. 6, for published maps.) Maps 13 to 21, inclusive, each bears a printed label, dated January 1927, which reads: "Supreme Court of the United States, No. 6, Original --October Term, 1926 . . ." An additional label bearing the names Arthur D. Kidder and Arthur A. Stiles, Commissioners, is pasted to the above label. The approximate scale is given for each map as the scale shown represents the scale of the published map. As the maps have wide margins, the neatline measurement is given in parentheses.

- (1) "Texas and Oklahoma Boundary Big Bend Area December 31, 1923 Map No. 1. Supreme Court of the United States. No. 15, Original --October Term, 1923." 1 inch to ca. 1,320 feet. (32 x 50 1/4) 44 x 62 1/2 (2 sections).
- (2) Big Bend Area showing medial line in the Red River. 1 inch to ca. 330 feet. 2 overlapping sheets (each dissected into 2 parts). Sheet No. 1: (43 1/2 x 45 3/4) 44 1/2 x 56 1/2. Sheet No. 2: (44 1/2 x 49 3/4) 45 x 62.
- (3) Missing.
- (4) ". . . Fort Augur Area September 3, 1924 Map No. 4. Supreme Court of the United States No. 13, Original --October Term, 1924." 1 inch to ca. 1,320 feet. (36 3/4 x 53) 44 1/2 x 62 (2 sections).

106. Diagrams of boundaries between most of the States west of the 95th Meridian and also between Minnesota and Iowa, Minnesota and Wisconsin, Alabama and Florida, and Alabama and Mississippi. Most of these diagrams show the connections of township lines along the boundaries. Manuscript on paper except the four diagrams indicated as being on tracing cloth. 1 inch to 6 miles except where indicated. An index map is listed as No. 47. The following diagrams are listed by number as shown on the index map:

- (1) "Diagram Showing along Lines 1 & 3 the Township lines along the S. Bdy. of Colorado, along the N. Bdy. of N. Mexico, and along part of the N. Bdy. of Oklahoma; showing also by Lines 2 & 4 the differences between Surveys executed by Darling in 1868, by Major in 1874, and by Carpenter in 1902." 12 1/2 x 36.
- (2) ". . . the true & erroneous location of Meridian line 103° long. West [between

- (46) Township lines along east boundary of South Dakota and west boundary of Minnesota. 27 x 13.
- (47) Map of part of the United States annotated to serve as an index to maps 1 thru 46, listed above. Annotated published. Small scale. 16 x 20.

PART III. FIELD NOTES AND RELATED RECORDS

The records described in this series, referred to in the General Land Office as "Old Case 'F' File," were transferred to the National Archives in 1952 with the boundary surveys. Most of them are field notes or reports on surveys that date from about 1796 to 1944, but there are also a few other closely related textual records and maps or plats bound in book form. The field notes pertain chiefly to State, Territorial, and Indian land boundaries represented by maps described in Part II, "Boundary Surveys." Some of the field notes and reports relate to maps described in other parts of this list and also to maps in other record groups, especially that of the records of the Bureau of Indian Affairs.

The records in this part are arranged in practically the same order as they were in the General Land Office.

The titles quoted have been taken from the title page as the preferred source; from the cover title, if there is no title page; or from the caption at the head of the text or on the backstrip (binder's title), if there is neither title page nor cover title. The description of the survey used in the statement of approval, which is usually found on the last page of the notes, has sometimes been used to amplify the title. If there is more than one volume bearing practically the same title, the title quoted is taken from the volume bearing the statement of approval or, if none was approved, from the volume that appears to be the original.

A volume described as "Field Notes" often includes a report, astronomical observations and computations, photographic views, diagrams, instructions, affidavits of surveyors and assistants, final results of the survey, and other related information. These records are all indexed as "F," followed by the number of the entry. An asterisk placed above the number indicates a map or plat rather than field notes or related textual records. The following entries represent more than 400 items.

1. "Journal and Field Notes, on the Boundary lines Between The United States and The Chaktaw [sic] nation of Indians [in Alabama and Mississippi]. Surveyed Pursuant to a Treaty concluded at Mount Dexter on the 16th day of November 1805." Surveyed by Silas Dinsmoor and Levin Wailes, and others, 1809. Manuscript. 219 p. 14 1/4 x 9 1/2.

2. "Field Notes of the Line of Demarcation between the States of Mississippi and Alabama as run and Cut out by James W. Exum, Surveyor under the Superintendance [sic] of John Coffee

Surveyor of the United States Lands in the State of Alabama, from the Mouth of Bear Creek on Tennessee river to the North west Corner of Washington County Alabama." Examined and approved by John Coffee on October 12, 1820. Manuscript. 36 p. 12 1/2 x 8. Instructions and letters. 21 p. 10 x 8.

3. "Field notes of the Eastern boundary of the Choctaw lands in the Territory of Arkansas, established by James S. Conway, in the months of November and December 1825." Manuscript. 74 p. 6 1/4 x 4.

4. "Field Notes of the Survey of the Cherokee line from the South West corner of Missouri to Fort Smith on the Arkansasaw [sic] River. By John Donelson Jr., Asst. Surveyor 1831." Manuscript. 23 p. 8 x 5 1/4. Marked "Copy."

5. "Field Notes [of the] Eastern Boundary Line of the Choctaw & Chickasaw Country [Indian Territory]. Surveyed by A. H. Jones and H. M. C. Brown, United States Surveyors, under their Contract with the Commission of Indian Affairs dated October 13, 1857." Certified May 20, 1858. Manuscript. 64 p. 13 3/4 x 8 1/2. Notes appear to be a copy. Copy of instructions. 7 p. 10 x 8.

6. "Field Notes of the Boundary Between Arkansas and the Choctaw Indian Lands [Indian Territory], (Including the Choctaw Treaty Line.) Resurveyed by Henry E. McKee, U. S. Surveyor . . . 1877." 3 manuscript volumes. Volume (1) was superseded by a more perfect one. Its title differs slightly from the one quoted which is the title for (2) and (3). Volumes (2) and (3) approved September 19, 1877. Volume (3) is a neater copy with probably a few omissions. Each volume, approximately 190 p. 13 3/4 x 8.

7. "Field Notes of the Boundary between Arkansas and the Cherokee Indian Lands [Indian Territory], (Including the Cherokee Treaty Line.) Resurveyed by Henry E. McKee, U. S. Surveyor . . . 1877." Approved November 12, 1877. Two manuscript volumes. (1) Marked "Original." (2) Marked "Duplicate." Each volume, approximately 135 p. 13 3/4 x 8. Instructions. 14 p. 12 1/2 x 8.

8. "Astronomical Observations, Reductions and Field Notes, of the Survey of the California and Oregon Boundary Line. By Daniel G. Major, U. S. Astronomer & Surveyor, 1868 & 1869." Approved June 17, 1870. Manuscript. 184 p. 14 3/4 x 9 1/2.

9. "Field Notes of the Eastern Boundary of the

State of California [between California and Nevada], Being that portion of the 120th degree of Longitude west from Greenwich, lying between the 42d and 39th degrees of north Latitude, as surveyed by Alexey W. Von Schmidt, U. S. Astronomer and Surveyor, Under his contract of July 20, 1872 . . ." Approved May 1, 1873. Manuscript. 132 p. 13 3/4 x 8 1/2.

10. Report, dated February 27, 1873, on the survey of part of the "Eastern Boundary of the State of California lying on the 120th Degree of Longitude West from Greenwich between the 42nd and 39th Degrees of North Latitude . . ." By Alexey W. Von Schmidt, U. S. Astronomer and Surveyor. Manuscript. 19 p. 12 1/2 x 8.

11. "Field Notes of the Eastern Boundary of the State of California [between California and Nevada], Being that portion of the line running from the 191st mile to the intersection of north latitude 39° with west longitude 120°; thence on azimuth line, southeasterly, to the intersection of north latitude 35° with west longitude 114° 37' 53" 50, in the center of the channel of the Colorado River of the West. As surveyed by Alexey W. Von Schmidt, U. S. Astronomer and Surveyor, Under his contract of July 20th, 1872 . . ." Approved January 30, 1874. Manuscript. 221 p. 13 3/4 x 8 1/4.

12. "Narrative Description of the Survey of the Southerly portion of the Eastern Boundary of the State of California." By Alexey W. Von Schmidt. Dated January 10, 1874. Manuscript. 10 p. 12 1/2 x 7 3/4.

13. "Astronomical Notes Accompanying Field Notes of the Eastern Boundary of the State of California, as surveyed by Alexey W. Von Schmidt, U. S. Astronomer and Surveyor, Under his contract of July 20th, 1872 . . ." Dated January 10, 1874. Manuscript. 141 p. 13 3/4 x 8 1/4.

14. "Computations for Azimuth of Random Line" in the survey of the eastern boundary of the State of California. Manuscript. 12 p. 10 1/2 x 8. Marked "Rec'd. with Alexey W. Von Schmidt's letter of January 10, 1874."

15. "Computations for Azimuth of True Line" in the survey of the eastern boundary of the State of California. Manuscript. 7 p. 10 1/2 x 8. Marked "Rec'd with Alexey W. Von Schmidt's letter of January 10, 1874."

16. Examination field notes and report of the survey of the west boundary of the Sequoia National Park, Calif., and of the surveys of the townships west of and adjoining the park. By T. M. Hurlbut, Examiner of Surveys. Dated February 25, 1907. Typescript. 17 p. 14 x 8 1/2.

17 (a). "Partial Report Investigation [of surveys adjacent to] Sequoia Park [western] Boundary. By W. O. Owen, U. S. Surveyor." Dated July 19, 1912. Typescript. 6 p. 14 x 8 1/2.

17 (b). "Sketch to Accompany Report on an Investigation of Surveys in and Adjacent to the Sequoia National Park, Tulare County, California. Investigation made . . . by W. O. Owen, U. S. Surveyor. Report dated January 29, 1913." Annotated blueprint. 1 inch to 1 mile. 28 1/2 x 22 1/2. Annotated to show lines reestablished and retraced and other corrections.

18 (a). Field notes of the "Survey of the Western Boundary of the State of Kansas." By John J. Major, 1872. Approved December 31, 1872. Manuscript. 89 p. 9 3/4 x 7 3/4. Marked "Original."

18 (b). "Astronomical observations and notes of the "Kansas & Colorado [Territory] Boundary Survey [by] John J. Major U. S. Astronomer & Surveyor" in 1872. Manuscript. 85 p. 9 3/4 x 7 3/4. Marked "Original."

19. Astronomical observations and computations and field notes of the "survey of that portion of the Southern boundary of Colorado Territory included between the 25th Meridian West from Washington and the 103rd Meridian West from Greenwich [sic], also of that portion of the Eastern boundary of the Territory of New Mexico lying between the 36° 30' and 37° parallel of North Latitude, as Executed by John J. Major, Astronomer and Surveyor, in conformity with his contract . . . bearing date June 2d 1873 . . ." Approved July 29, 1874. Manuscript. 77 p. 9 1/2 x 7 1/2.

20. "Colorado-Utah Boundary Line." Field notes and astronomical report of the "survey of that part of the boundary line between the State of Colorado and the Territory of Utah from the Initial Point at the intersection of the 32nd Degree of Longitude West from Washington with the 37th Degree of North Latitude, north one hundred and fifty miles, executed by Rollin J. Reeves, Astronomer and Surveyor, under his contract . . . dated July 26, 1878 . . ." Approved April 1, 1879. Manuscript. 391 p. 13 3/4 x 8 1/4. Report dated February 1, 1879. 45 p. 12 1/4 x 8.

21. "Field Notes [and astronomical report] of the Survey of the Colorado Utah [Territory] Boundary Line From the 150th mile station to the N. W. corner of Colorado inclusive. Surveyed by Rollin J. Reeves. U. S. Surveyor and Astronomer, 1879." Approved May 5, 1880. Manuscript. 187 p. 16 x 10 1/4. Report dated January 25, 1880. 31 p. 16 x 10 1/2. Marked "Original."

22. "Field Notes Of the survey re-marking and Completing a portion of the Boundary Line between

the State of Colorado and the Territory of Utah As Surveyed by Allen D. Wilson U. S. Surveyor under his contract Dated June 20th 1885." Approved January 22, 1886. Manuscript. 149 p. 14 x 8 1/4.

23. "Original Field Notes [astronomical observations and photographic views] of the Re-survey of the Boundary Line Between the State of Colorado and the Territories of New Mexico and Oklahoma. Executed under Contract Dated July 7th 1902 by Howard B. Carpenter U. S. Surveyor and Astronomer." Approved February 25, 1904. Typescript. 495 p. 13 3/4 x 9 1/2.

24. "Examination of the Re-Survey South Boundary of Colorado . . . Also Notes of Observations and Computations of Astronomical Examination . . . 1902-3." 2 sets of notes bound in one volume with title on cover.

- (1) "Astronomical Stations. Field Notes of the Examination of the Survey of the South Boundary of Colorado [between the State of Colorado and the Territories of New Mexico and Oklahoma], Executed by Howard B. Carpenter, U. S. Surveyor, Under his Contract dated July 7, 1902, as Examined by Arthur D. Kidder, Examiner of Surveys . . . 1902." Manuscript. 70 p. 13 3/4 x 8 1/4.
- (2) "Field Notes of the Examination of Surveys [of] Colorado-New Mexico Boundary Line. Executed by Howard B. Carpenter, U. S. Surveyor . . . as Examined by Frank M. Johnson, Examiner of Surveys . . . 1903." Manuscript. 49 p. 13 3/4 x 8 1/4.

25. Miscellaneous historical notes and memoranda in volume labeled "Boundary between Georgia & Florida & other Ellicott data, 1796-1831," including maps and plates that appear in the Journal of Andrew Ellicott Published in 1803.

- (1) Manuscript notes and memoranda on the different surveys of the boundary. Cover bearing title and 13 p., varying in size from 7 x 8 to 10 x 8.
- (2) Maps showing the Ohio River from western Pennsylvania to its mouth, the Mississippi River from the mouth of the Ohio to the Gulf of Mexico, West Florida, part of East Florida, and the southern boundary of the United States. Published. 1 inch to ca. 5 miles. Plates A to F, varying in size from 16 x 11 1/2 to 10 x 22.
- (3) Plates accompanying the appendix of the Journal of Andrew Ellicott on the astronomical and thermometrical obser-

vations made in determining the southern boundary of the United States. Annotated published. Plate showing boundary from the Mississippi River to the 3rd mile, 1 inch to 1 mile. Plates for the remainder of the boundary as far as the Chattahoochee River, 1 inch to 1/2 mile. 8 plates, varying in size from 13 x 13 3/4 to 13 1/2 x 6 3/4. Some of the plates bear annotations as to offset distances. All plates have been removed from the volume; and they have been clothbacked and laminated.

26 (a). "Field Notes of the Traverse line run from the Confluence of the Flint and Chattahoochee rivers to Ellicotts Mound, at the Source of the St. Marys river. Florida. 1825," and "Notes and Observations on the boundary line between the State of Georgia, and the Territory of Florida." By Daniel F. McNeil, Deputy Surveyor. Manuscript. 33 p. 12 3/4 x 7 3/4. Marked "See corrected copy recd. with S G's letter of Aug 20/ 49 . . ."

26 (b). "Field Notes of the Traverse Line . . ." and "Notes and Observations On the Boundary Line between the State of Georgia and Territory of Florida." By Daniel F. McNeil, 1825. 39 p. 12 3/4 x 8. Marked "Recd with S. Gs. letter of Aug 20 / 49 . . . Transcript certified by Sur Gnl [of Florida] 18 Augt 1849."

26 (c). Part of the above field notes and observations by Daniel F. McNeil which were evidently copied for Senator Westcott on August 15, 1849. 33 p. 1 p., 8 x 10; 32 p., 12 3/4 x 8.

26 (d). A corrected proof copy of the above notes and observations by Daniel F. McNeil. Annotated published. 36 p. Average size, 9 1/2 x 6.

27. "Field Notes of the Boundary Line between Florida and Georgia from the mouth of Flint River to mound B. (commonly known as Ellicott's Mound) near the South margin of the Okefenokee Swamp Surveyed in . . . 1859, and . . . 1860, by B. F. Whitner, Jr. on the part of Florida, and Gustavus J. Orr, on the part of Georgia." Certified August 20, 1872, as a correct transcript of the original. Manuscript. 175 p. 10 1/4 x 7 3/4.

28. "Field Notes of the Dependent Resurvey of the Exterior Boundaries of the Piedmont Subsistence Homestead Project. Jasper County, in the State of Georgia. Executed by Walter H. Good, Surveyor . . . 1935." Approved April 19, 1937. Typescript. 100 p. 14 x 7 3/4. "Original" appears on title page.

29. "Field Notes of the Survey of the Boundary Line between Idaho and Montana from the International Boundary to the Crest of the Bitter Root Mountains . . . as surveyed by D. L. Reaburn, United States Surveyor, Under the Direction of the

Director of the U. S. Geological Survey . . . 1899." Approved January 31 and April 26, 1900. Type-script. 101 p. 13 3/4 x 8 1/2. "Original for filing in the General Land Office" appears on title page.

30. "Field Notes [and photographic views] of the Survey of the Boundary Line between the States of Idaho and Montana . . . [along the Bitter Root Range and Continental Divide to the west boundary of the State of Wyoming] Executed . . . by Howard B. Carpenter U. S. Surveyor." Surveyed 1904-7. Approved April 7, 1906, and October 16, 1907. Typescript. 3 volumes. Vol. 1, 369 p.; vol. 2, 385 p.; and vol. 3, 286 p. 15 3/4 x 11. Each volume is designated as "Original."

31. "Copy of the Field Notes of the retracing re-marking and measuring the line of demarcation between the States of Indiana and Illinois [north from section 33, T. 16 N., R. 10 W, Second Principal Meridian, to beyond the 75th mile]; done in pursuance of the provisions of the Act of Congress of March 2d 1833, and in conformity to the Instructions of the Commissioner of the General Land Office, of April 23rd 1833." Surveyed by Perrin Kent, Deputy Surveyor, 1834. Signed September 27, 1834, "M. T. Williams, Sur. Genl." Manuscript. 53 p. 6 1/4 x 4.

32. "Copy of the Field Notes of the retracing, re-making and measuring, the line of demarcation between the States of Indiana and Illinois [north on the 76th mile to Lake Michigan]; done in pursuance of the provisions of the Act of Congress of March 2d 1833, and in conformity to the Instructions of the Commissioner of the General Land Office of April 23d 1833." Surveyed by Sylvester Sibley, Deputy Surveyor, 1834. Signed September 27, 1834, "M. T. Williams, Sur. Genl." Manuscript. 48 p. 6 1/4 x 4.

33. "Report [dated January 29, 1833] of the Commissioners appointed to run the Northern boundary of the State of Illinois" and letter of transmittal of the same date from Lucius Lyon, Commissioner on the part of the United States, to President Andrew Jackson. Manuscript. Report, 8 p. 12 1/2 x 8. Marked "Copy." Letter, 1 p.; cover sheet, 1 p. 10 1/2 x 8.

34. Field books of the survey of the boundary of the Creek Country, Indian Territory, including the North Fork of the Canadian River, made under the direction of the Bureau of Topographical Engineers, by Capt. L. Sitgreaves and Lt. I. C. Woodruff and assistants, 1849-50. Manuscript. 15 volumes as follows:

- (1) "Compass Book No. 1." "Chain Book No. 2." "Compass Book No. 3." By Isaac W. Smith, 1849. 3 volumes. 297 p. (total). 7 1/2 x 4 3/4.

- (2) "Sextant" book. By Sitgreaves and Woodruff, 1849. 1 volume. 85 p. 7 1/4 x 4 3/4.

- (3) Unidentified volume apparently consisting of astronomical observations and calculations and chronometer readings, 1850. 1 volume. 77 p. 7 1/4 x 4 3/4.

- (4) Lunar culminations, by Lt. I. C. Woodruff, and computations, by J. Downs. 1 volume. 29 p. 7 1/2 x 4 3/4.

- (5) Chain and line topography books of the "Creek Boundary Survey." By William C. Mayhew, 1850. 4 volumes. 344 p. (total). 7 1/4 x 4 3/4.

- (6) Compass and chain books of the "Survey of the North Fork of the Canadian River." By William C. Mayhew, 1850. 4 volumes. 404 p. (total).

- (7) Topographic sketches and notes on the "Creek Boundary Line." By Joseph R. Smith, 1850. 1 volume. 55 p. 7 1/4 x 3 3/4.

35. Field notes of the survey of part of the eastern boundary of the Creek Country, Indian Territory, north of the Arkansas River. By John J. Halsey, 1855. Manuscript. 2 volumes. 121 p. (total). 9 x 5.

36. Incomplete field notes of the survey of the "Eastern Boundary of the-Creek Country [Indian Territory]-West of the Arkansas-[from the Canadian to the Arkansas River, by] A. R. Potts." n. d. Manuscript. 2 volumes. 134 p. (total). 7 1/4 x 4 1/2.

37. Field notes of the survey of the north bank of the Canadian River, along the south boundary of the Creek and Seminole Country, from the confluence of the North Fork and Canadian Rivers to the mouth of Pond Creek at about the 97th meridian and also the computation of the area of the Creek Country east of the meridian. By Frederick W. Bardwell, 1870-71. Certified February 20, 1871, and January 4, 1872. Manuscript. 58 p. (in large volume containing many blank pages). 13 x 7 3/4. These notes were evidently copied from the original notes on file in the Bureau of Indian Affairs.

38. "Field Notes of the Survey of the Boundary lines between the Cherokee Country [Indian Territory] and the States of Arkansas, [and] Missouri . . . [east boundary of Cherokee Country from Fort Smith, Arkansas, to the southeast corner of the Seneca lands]; Surveyed under instructions from the Commissioner of Indian Affairs and by virtue of a Contract made and agreed upon by Hon. Commissioner James M. Ashley on the part of the United States and Hon. Commissioner John L. Adair

on the part of the Cherokee Nation, and Daniel P. Mitchell United States Deputy Surveyor in 1871." Manuscript. Marked "Book No. 1." 114 p. 8 1/4 x 7. There are also 45 pages of notes, evidently a copy, clipped together and marked "Compared." 13 3/4 x 8 1/4. For approval see No. 39 below.

39. "Field Notes of the Survey of the Boundary Line between the State of Kansas and the Cherokee Country [Indian Territory, between the Neosho and Arkansas Rivers]. Surveyed under instructions from the Commissioner of Indian Affairs . . ." By Daniel P. Mitchell, 1871. Approved December 11, 1871, by James M. Ashley, Commissioner for the United States and John L. Adair, Commissioner for the Cherokee Nation. Manuscript. Marked "Book No. 2." 86 p. 8 1/4 x 7.

40. "Field Book No. 1 of a survey of the line between the Sacs, Foxes and Sioux tribes of Indians agreeable to the treaty of 1825 Aug. 19th 2nd Art. and 1830 July 15 [at Prairie du Chien]. Surveyed in 1832. Nathan Boone Surveyor." Manuscript. 62 p. 7 3/4 x 5. Marked on cover "(Copy)" and "Iowa."

41. "Field Book No. 2 of a Survey of the Sioux Cession [agreeable to the treaty] of 15 July 1830 [at Prairie du Chien]. Nathan Boone Surveyor." Manuscript. 47 p. 7 3/4 x 5. Marked on cover "Copy" and "Iowa."

42. "Field Book No. 3 of a portion of the survey of the Sac and Fox Cessions agreeable to the Treaty of 15 July 1830 [at Prairie du Chien]. Meanders Missi R. south of mouth of Upper Ioway [sic] R. [1832] Nathan Boone Sur." Manuscript. 8 p. 7 3/4 x 5. Marked on cover "(Copy)" and "Iowa."

43. Field books of the "Sac & Fox Survey treaty of the 21st of September 1832" at Fort Armstrong, Rock Island, Ill. Dated St. Louis, Mo., October 9, 1835. Charles De Ward, Assistant Surveyor, for William Gordon, Surveyor. Manuscript. 2 books. Book No. 1, 77 p.; Book No. 2, 84 p. Each, 7 1/2 x 4 3/4. Both marked on cover "Copy" and "Iowa."

December 30, 1833. James Craig Surveyor." Manuscript. 36 p. 7 3/4 x 5. Marked on cover "Copy" and "Iowa."

45. "Original Field Notes [Book No. 2] of the Southern Boundary of the Sac and Fox Cession by the Treaty of Prairie du Chien of 15 July 1830 and the Meanders of the Desmoine [sic] River from where the said line strikes it to the Upper Fork.

St. Louis, Dec. 30, 1833. James Craig, Surveyor." Manuscript. 57 p. 7 3/4 x 5. Marked on cover "Copy" and "Iowa."

46. "Boundary Line between [the] Sioux and Chippeways [sic]. Field Notes of Random Line" according to the Treaty of Prairie du Chien, August 19, 1825. Surveyed by Jonathan L. Bean and John A. Clark in May, June, and July, 1835. Manuscript. 2 books. Book No. 1, 105 p. Marked on cover "Minn. & Wis." Book No. 2, 44 p. Marked on cover "Minn." Each, 7 1/2 x 5 1/4.

47. "Boundary Line between [the] Sioux and Chippeways [sic]. Field Notes of True Line" according to the Treaty of Prairie du Chien, August 19, 1825. Surveyed by Jonathan L. Bean and John A. Clark, July-September 1835. Manuscript. 2 books. Book No. 1, 108 p.; Book No. 2, 46 p. Each, 7 1/2 x 5 1/4. Both marked on cover "Minn."

48. "Field Notes of the Survey of Islands in the Mississippi River in Townships 71, 72, 73, & 77 N. of Range 1 West of 5th P. M. and Townships 68, 70, & 74 N. of Range 2 West of 5th P. M. [Iowa] as executed by J. E. Witcher Dep. Surveyor in 1842." Certified as a copy February 10, 1869. Manuscript. 50 p. 6 1/4 x 3 3/4.

49. Documents, dated 1849-53, relating to the survey of the northern boundary of the State of Iowa (Iowa and Minnesota Territory boundary). Apparently prepared for binding into one volume.

- (1) "Report [dated December 15, 1849] of Capt. [Thomas J.] Lee, with his observations, in reference to establishing the initial point, near the Mississippi River, of the North boundary of Iowa, in the Parallel of 43° 30' N. [altitude]." Manuscript. 55 p. 12 1/2 x 8. Marked "Recd. with S. G. s letter of Feb. 5/50 as No. 13, 454."
- (2) "Report [dated April 20, 1850] from Capt. [Thomas J.] Lee, as to the proposed method of tracing the Parallel, according to the principles adopted by the Topographical Bureau." There is also a letter dated April 23, 1850, from Col. J. J. Abert, Corps of Topographical Engineers, to the Commissioner of the GLO transmitting the report. Manuscript. Report, 18 p.; letter, 1 p. Each, 13 x 8. Both marked "Copy."
- (3) Letter dated May 12, 1851, from the Principal Clerk of Surveys to the Commissioner of the GLO transmitting a copy of report in reference to the boundary line between Iowa and Minnesota; also a copy of letter dated June 18, 1851, from the Commissioner to the Secretary of the Interior regarding the survey of the northern boundary of Iowa and the

appointment of Capt. Andrew Talcott and assistants to run the line. Manuscript. 8 p. 1 p., 10 x 8; others, 12 3/4 x 8.

- (4) "Chief Engineer's Instructions to Deputy Surveyors." Dated May-August, 1852. Manuscript. 28 p. 12 1/2 x 7 3/4.
- (5) Field notes of the "Iowa and Minnesota Boundary." Submitted by Andrew Talcott, Deputy Surveyor, to the Surveyor General of Wisconsin and Iowa. Dated February 10, 1853, Deputy Surveyor's Office, Richmond, Va. Approved July 1, 1853, by the Surveyor General. 2 numbered services. Total, 289 p. 13 1/2 x 8 1/4.
- (6) Notes on "Proposed Monuments on line between Iowa & Minnesota." Manuscript. 2 p. (including notations on reverse). 10 x 8.
- (7) Tables of "Offsets from Guide Lines to Monuments." Manuscript. 12 p. 12 3/4 x 7 3/4.
- (8) "Report of Principal Assistant," Isaac W. Smith. Manuscript. 14 p. 12 3/4 x 7 3/4.
- (9) "Report of Principal Deputy Surveyor," Andrew Talcott. Dated February 19, 1853. Manuscript. 23 p. 12 3/4 x 7 3/4. Included also are reports to Capt. Andrew Talcott from Isaac W. Smith and J. M. Marsh.

50. "Register of Observations with an Equal Altitude & Zenith Telescope . . . for determining the Parallel of 43° 30' North Latitude in establishing the Boundary line between Iowa and Minnesota." Certified May 11, 1853, by Andrew Talcott, Deputy Surveyor. Manuscript. 2 volumes, with same title, are bound together in volume bearing title on backstrip "Northern Boundary of Iowa." Vol. 1, 193 p.; vol. 2, 105 p. 10 x 8.

51. "Capt. Thos J. Lee's Report [and observations upon the determination of the] Intersection of 40° N. [atitude] with the Missouri River Decr 23d 1854. Kansas-Nebraska" Territory boundary survey. Manuscript. 22 p. 13 1/2 x 8.

52. "Surveyor's Report &c. Wyandott Lands [in Kansas Territory]. Diagram of Surveys and Abstracts of Field Notes of the Subdivisional Allotments made by the Valuation Commissioners." Surveyed by John H. and William Millar, 1858. Manuscript. 66 p. (including 28 plats or diagrams). 11 x 8 1/2. "Copy" was transmitted to Commissioner of the GLO by Office of Indian

Affairs on September 20, 1862.

53. Report of January 20, 1925, and supplemental report of March 27, 1926, by Leo M. Petersen, U. S. Surveyor, on the restoration of the original corner monument marking the initial survey point of the Kansas and Nebraska public land surveys. Included are field notes of the retracement of a part of the State line between Kansas and Nebraska, a blueprint diagram showing the initial corner, and four photographs of the monument. Typescript. Report of 1925, 12 p.; report of 1926, 11 p. 10 1/2 x 8. Diagram, 13 3/4 x 8 1/2. Photographs mounted on sheet, 8 x 13 3/4.

54. Descriptions and field notes of surveys of "Mineral and Timber Lands [and] Leases 1826. 7. 8. 9. Michigan" Territory. Manuscript. 135 p., including several pages of "Register of Licenses." 6 1/4 x 7 1/2.

55. "Report and Field-Notes of the Survey of the Boundary Line between Michigan and Wisconsin as run and established by Wm. A. Burt, D. S. in 1847. . . ." Manuscript. 52 p. 13 1/2 x 8. Certified as a copy.

56. "Field Notes of the Survey of the Village & Private Land Claims at Sault Ste. Marie [and along the straits and St. Marys River], Michigan 1852-3 By William Edmunds, U. S. D. S." Manuscript in 3 volumes. Total, 301 p. 7 x 4. Each volume is marked "Copy."

57. "Field Notes of The Survey of the Western Boundary of The State of Minnesota . . . C. H. Snow [and] Henry Hutton, Surveyors . . . 1859." Approved February 15, 1860. Manuscript. 53 p. 7 x 4 3/4. Marked on cover "No. 1" and "Original." Folded and attached are 2 sheets of "Computations used in determining the direction of the Meridian at the outlet of Big Stone Lake . . ." 12 1/2 x 7 1/2.

58. "Field Notes of the Resurvey of Western Boundary of Minnesota--between Iron Monuments at Heads of Lakes Traverse and Big Stone . . . 1860." Surveyed by Henry Hutton under joint contract with C. H. Snow of April 30, 1859. Approved September 5, 1860. Manuscript. 14 p. 7 x 4 3/4. Marked on cover "No. 2" and "Original."

59. "Field Notes of the Examination of the Western boundary of the State of Minnesota [as run and marked by C. H. Snow and Henry Hutton] and also a Diary of the time employed with the service commenced November 8th 1859 and ending Dec 1859 by Ehud. N. Darling." Manuscript 24 p. 6 3/4 x 4. Marked on cover "No. 1" and "Original." General and supplemental reports are folded and attached. 7 p. 12 1/2 x 8.

60. Field notes of the examination of that part of the western boundary of the State of Minnesota lying between Lake Traverse and Big Stone Lake as run and marked by C. H. Snow and Henry Hutton, including a diary of the work and travel. By Frederic Wiperman. Dated September 11, 1860. Certified September 12, 1866. Manuscript. 9 p. 12 3/4 x 8. Marked "No. 2."

61. "Field Notes of the survey and Location of the Nett Lake Indian Reservation [Minnesota] made by George R. Stuntz U. S. Dept Surveyor under The direction of Commissioners S. P. Adams J. C. Ramsey [and J. B.] Webb." Dated January 8, 1866. Manuscript. 43 p. 12 3/4 x 8. This appears to be a copy.

62. Report, astronomical observations, and field notes of the survey of the "Boundary between Dakota & Montana [Territories], 1855," along the 27th Meridian west from Washington between the 45th and 49th Parallels of North Latitude. Executed by Daniel G. Major under contract dated June 20, 1885. Approved April 17, 1886. Manuscript. 211 p. 12 1/4 x 8.

63. Volume bearing title on backstrip "Boundary Line between Nebraska Colorado and Wyoming--O. N. Chaffee--1869." Noted on title page "For the Office of Sur Gen'l of Nebraska" and marked "TriPLICATE." The volume includes:

- (1) "Field Notes [and index diagram] of Western Boundary Survey of Nebraska," along the 41st Parallel and along the 25th and 27th Meridians west from Washington. O. N. Chaffee, Astronomer and Surveyor. Approved April 15, 1870. Manuscript. 143 p. 14 x 8 1/4. Certified as a copy.
- (2) "Report [on the] Boundary Survey of Nebraska. O. N. Chaffee, 1869." Dated Detroit February 6, 1870. Approved April 15, 1870. Manuscript. 21 p. 9 3/4 x 7 1/2. Noted in red ink "to Surveyor Gen'l of Nebraska & Iowa."
- (3) "Boundary Survey of Nebraska. Copy of Astronomical Tables. O. N. Chaffee. Astronomer and Surveyor, 1869." Approved April 15, 1870. Manuscript. 37 p. 14 x 8 1/4.
- (4) "Drawings [sketches of scenes along the] 27th Meridian W fr[om] Washington bet 41° & 43° N. L. Oliver N Chaffee Astr & Sur. 1870." 13 sketches, each 7 1/4 x 9 1/2.

64. Unbound field notes and astronomical tables of the boundary line between Nebraska, Colorado, and Wyoming along the 41st Parallel and along the 25th and 27th Meridians west from Washington as surveyed by O. N. Chaffee, 1869. There are also

nine sketches of scenes along the 27th Meridian. Manuscript. 180 p. 14 x 8 1/2. Marked "Duplicate." Sketches, each 7 1/2 x 9 1/2.

65. "Field Notes of the Survey of the North Boundary of Nebraska, Being so much of the 43d Parallel of North Latitude as extends from the center thread of the Keya-Paha River West to its point of intersection with the 27th degree of Longitude West from Washington. Executed by Chauncey Wiltse, Surveyor and Astronomer . . . 1874." Approved December 12, 1874.

66. Field notes (vols. I and II) "Retracement of the boundary between Nebraska and South Dakota from the Terminal Monument at the Northwest corner of the State of Nebraska to the Keya Paha river . . ."; field notes (vols. III to VI) "Resurvey of the Nebraska-South Dakota boundary from the Initial Monument at the Keya Paha River to the Terminal Monument at the Northwest corner of the State of Nebraska . . ."; and (vol. VII) "Field notes of the Parallel of 43° N Latitude on boundary between Nebraska and South Dakota from the Initial Monument at the Keya Paha river to the Missouri river as surveyed by Joseph H. Jenkins U. S. Surveyor under his contract dated the 20th day of May 1893." Approved December 15, 1894. Manuscript. 7 volumes. Total, 505 p. 7 3/4 x 4 3/4. Certifications (attached), 18 p., varying in size from 8 1/2 x 7 3/4 to 13 x 7 3/4.

67. "Field Notes of the Survey of the Eastern Boundary of Nevada [being the 37th degree of longitude West from Washington between the State of Nevada and the Territories of Utah and Arizona] by I. E. James, Astronomer & Surveyor, under Contract of Aug. 16, 1870. Also the Report of Daniel G. Major of his Examination of the Survey." The following records are numbered and bound in one volume, with title page as quoted. Manuscript. Total, 350 p. 12 1/2 x 8 1/4.

- (1) "Field Notes of Survey--from the "Initial Point" North to Idaho line Lat 42° North . . ." 22 p. For approval see No. (2) below.
- (2) "Field Notes of the survey--from the "Initial Point" South to the Colorado River, Lat. 36° 9' 57" North . . ." Approved February 6, 1871. Certified as a correct copy. 116 p.
- (3) "Astronomical Observations & Determinations of the Initial Point on the C. P. R. R. the intersection of the 37° L. W. with South Boundary of Idaho, the intersection of the 37th° L. W. with the Boundary of Arizona, Lat. 37° North, & the Latitude of the Middle of the Colorado River at the intersection of 37° L. W." 15 p.

- (4) "Report on the Survey of the East Boundary of Nevada Submitted February 6th 1871." 13 p. 9 p. 14 x 8 1/2.
- (5) Eastern Boundary of Nevada Supplemental Report. "Certified as a copy. Marked 'Rec'd with Sur. Gen'l's letter of March 15, 1871.' 8 p. Also a duplicate of 10 pages is clipped inside front cover. Marked 'Copy.'"
- (6) "Eastern Boundary of Nevada Astronomical Observations and Triangulation of J. T. Gardner Astronomer U. S. Geological Survey Fortieth Parallel," including small sketch of Pilot Peak Range. Dated September 22, 1870. 21 p.
- (7) ". . . Sketch of Pilot Peak Range J. T. Gardner Astronomer U. S. Geological Survey Fortieth Parallel." Title p., 12 1/2 x 7 1/4. Sketch on tracing cloth. 1 inch to 4 miles. 12 1/2 x 34 1/2.
- (8) Report, dated August 15, 1871, including observations on the examination of the Utah-Nevada boundary. 149 p. Marked "Rec'd . . . with letter of Daniel G. Major . . . dated September 15, 1871."
- (9) Field notes "of the reestablishment of a portion of the Eastern boundary of Nevada, erroneously established by Mr. I. E. James, and corrected by Mr. D. G. Major . . ." Approved June 14, 1872. 3 p. Bound between Nos. (1) and (2) above.
68. "Field Notes [and astronomical observations and computations] of the Northern Boundary of Nevada [line between the States of Nevada and Oregon and Idaho Territory] Daniel G. Major U. S. Astronomer and Surveyor." Approved December 9, 1873. Manuscript. 280 p. 12 1/4 x 7 3/4. Marked "Original."
69. "Field Notes of the Survey of the Abandoned Red Bank Military Reservation in Gloucester County, New Jersey as Surveyed by Arthur D. Kidder . . . 1905." Approved May 1905. Typescript. 13 p. 14 x 8 1/2.
70. "Tabling and Calculations [the recomputation] of Lot #1 of 'Red Bank Military Reservation.'" By Walter N. Ross, July 17, 1913. Marked "O. K. Arthur D. Kidder, Supervisor of Surveys." 1 p. 8 1/2 x 14.
71. "Field Notes of the Survey of the 'Bayside' (Point Comfort) Abandoned Military Reservation in Middletown Township, Monmouth County, New Jersey. Executed by William H. Richards, Jr. . . 1917." Approved May 10, 1919. Typescript.
72. "Field Notes of the Survey of the Boundaries of [the] United States Naval Ammunition Depot . . . Monmouth County, New Jersey." Executed by Hal D. Craig, Hugh B. Crawford, George W. Johnson, Ranney Y. Lyman, Lloyd E. Toland, and Oscar B. Walsh, 1943-44. Approved November 3, 1944. Typescript carbons. 4 sets of notes. 14 x 8 1/2. Each set is indicated as "Triplicate" and marked "9669."
- Unit No. 1. Middletown Township. 13 p.
Unit No. 2. Middletown Township. 13 p.
Unit No. 3. Atlantic, Howell and Wall Townships. 36 p.
Unit No. 4. Missing.
Unit No. 5. Atlantic and Shrewsbury Townships. 16 p.
73. Field Notes of the Survey of the Boundaries of Addition to Lakehurst Naval Air Station Manchester Township, Ocean County, New Jersey." Executed by Lloyd E. Toland and George W. Johnson, 1944. Approved September 16, 1944. Typescript carbon. 8 p. 14 x 8 1/2. Indicated as "Duplicate" and marked "9662."
74. "Field Notes of the Survey of the 37th Parallel of North Latitude, so far as it constitutes the North boundary of New Mexico [Territory with Colorado Territory], commencing at the 103° and terminating at the 109° of West Longitude from Greenwich. by Ehud N. Darling Surveyor & Astronomer, under his Contract dated May 22nd 1868." Approved April 30, 1869. Manuscript. 241 p. 8 1/4 x 5 1/2. Marked "Copy No. 1."
75. "Field Notes, computations, and final results of Astronomical work, made for the establishment of the 37th Parallel of North Latitude so far as it constitutes the North boundary of New Mexico [Territory with Colorado Territory], from the 103° to 109th of West Longitude from Greenwich, by Ehud N. Darling U. S. Surveyor & Astronomer under his contract dated May 22nd 1868 . . ." Approved April 30, 1869. Manuscript. 211 p. 13 1/2 x 8.
76. "Field Notes of the Survey of the Western boundary of New Mexico [between the Territories of New Mexico and Arizona] being that portion of the 32nd degree of Longitude West from Washington included between the 37° and 31° 20' parallel of North Latitude by Chandler Robbins U. S. Surveyor and Astronomer, under his contract bearing date April 12th 1875." Approved March 27, 1876. Manuscript. 269 p. 13 3/4 x 8 1/4. Marked "Original."
77. "Field Notes of the Resurvey of the Exterior Boundaries, the Townsite of White Oaks and of the Mining Surveys, in the White Oaks Mining

District, in Lincoln County, New Mexico. As Surveyed and located By Clayton G. Coleman, . . . 1891." Manuscript. 40 p. 14 x 8 1/2. Marked "1891 [?] 101455-3." Also indicated as Book No. 2.

78. Field notes of the "Allegany & Indian River Traverse Vol. 49, 1798. Richard M. Stoddard Surveyor." Manuscript copy from the original on file in the Office of the Secretary of State at Albany, N. Y. 101 p. 7 1/2 x 6.

79. Field notes and diagrams of a part of the "Cattaraugus Indian Reservation [New York], Surveyed-1798" by Augustus Porter. Manuscript. 16 p. 9 x 5 1/2. A note indicates that this is a copy prepared in the GLO from a certified copy of the original record in the Office of the Secretary of State at Albany, N. Y. The certified copy was received July 26, 1878, and sent to Charles E. Fink, Deputy Surveyor, who resurveyed the reservation under contract of July 6, 1878.

80. "Field Notes of the resurvey, of the Cattaraugus Indian Reservation [New York] by Chas. E. Fink, July 1878." Approved December 4, 1878. Manuscript. 297 p. 8 x 5.

81. Two field books and a transit book of "U. S. Commissioners Survey Alleghany Indian Reservation N. Y." Field books certified January 20, 1877. Manuscript. 3 volumes. No. 1, 286 p.; No. 2, 121 p.; and No. 3, 51 p. Each 8 1/2 x 5.

82. Binder labeled "New York Field Notes. Vol. 1." This volume includes notes of the resurveys of the boundaries of Indian reservations and also notes of the survey of the site of the Franklin D. Roosevelt Library and Residence. The notes are listed in the order in which they appear in the binder. All are indicated as "Original." 8 sets. Each, 14 x 8 1/2.

- (1) "Field Notes [of the] Dependent Resurvey of the [boundary of the] Allegany Indian Reservation Cattaraugus County New York. Executed by Guy R. 83. Field notebooks of reconnaissances and surveys made in the Cherokee Nation in North Carolina and extending over the border into Georgia and Tennessee. The notes and topographic sketches are in pencil and include surveys of routes between Forts Butler, Delaney, Hembrie, and Linsay in North Carolina, and surveys and reconnaissances of creeks, rivers, and trails in the area. Names found in the books are Mr. Adams, A. Campbell, C. Fremont, Mr. Pillans, and John K. Stimson. The surveys were apparently made under the direction of Capt. W. G. Williams, U. S. Topographical Engineers, about 1837-38. 13 notebooks. Manuscript. 945 p. Average size, 8 1/2 x 5. These notes appear to be related to a map and report filed as U. S. 125 in the records of the Office of the Chief of Engineers.

84. "Narrative Of Researches, Explorations and Observations of Special Agent Francis A. Dony, appertaining to the Lands of the Eastern Band of Cherokees in Western North Carolina, authorized by Act of Congress approved June 23, 1874 to be surveyed under the supervision of the Honorable Secretary of the Interior made in pursuance of instructions from the Honorable Commissioner of the General Land Office . . ." Dated July 31, 1874. Manuscript. 84 p. 9 1/4 x 7 1/2.

85. "Field notes of the survey of the exterior boundary, of the lands owned by the Eastern Band of Cherokee Indians, commonly known as the 'Qualla Boundary.' Situated in Jackson and Swaine [sic] Counties, State of North Carolina, By M. S. Temple, Deputy Surveyor. Under his Contract, No. 1. bearing date of March 30th 1875." Approved September 18, 1875. Manuscript. 166 p. 13 3/4 x 8. Marked "Recd with M. S. Temple's letter Aug't 30 1875." Bound as "Field Notes Vol. 1 N. C."

86. "Field Notes, Made in Sub-dividing into Farms the Lands owned by the North Carolina Band of Cherokee Indians Situated in Jackson and Swain Counties N. C. 'Qualla Boundary' Surveyed in 1876, By M. S. Temple, Deputy Surveyor. Vol. 2." For Vol. 1 see No. 89 (2) below. Approved November 6, 1876. Manuscript. 247 p. (including an index prepared in the GLO). 13 3/4 x 8. Marked "Original" and "Rec'd with M. S. Temple's letter of Sepr 18 1876." Bound as "Field Notes. Vol. 2. N. Carolina."

87. "Field notes of the survey of the Exterior Boundary of the lands owned by the Eastern Band of Cherokee Indians commonly known as the 'Qualla Boundary' situated in Jackson and Swaine [sic] Counties, State of North Carolina, By M. S. Temple Deputy Surveyor under his Contract, No. 1, bearing date March 30 1875." Approved September 18, 1875. Manuscript. 2 sets of notes. One marked "Copy for Jackson County N. Carolina." The other marked "Copy for Swaine [sic] County, North Carolina." Each set, approximately 158 p. 13 3/4 x 8. Bound as "Field Notes. Vol. 3. N. C." (See also No. 85 above.)

88. Field notes of surveys of subdivisions and private tracts within the Eastern Cherokee Indian lands known as the "Qualla Boundary" in Swain and Jackson Counties, N. C., as surveyed by M. S. Temple, 1875-76. Manuscript. 380 p. (including an index prepared in the GLO). 13 3/4 x 8. The notes, bound as "Field Notes. Vol. 4. N. Carolina," are as follows:

- (1) "Field notes of the Survey of the Subdivision of the 'Qualla Boundary' Situated in Jackson County . . . on the South side of Soco Creek . . ." Approved February 14, 1876. 72 p. Marked "Original" and "Recd with M. S.

Temple's letter of Jan'y 13, 1876."

- (2) "Field notes of Swain & Jackson County line as run through 'Qualla Boundary' Aug. 24, 1875. Also--Township lines dividing the Qualla Boundary into five townships. . ." 22 p. Marked "Original" and "Recd. with M. S. Temple's letter of Jan'y 13th 1876."
- (3) "Field notes of the survey of the subdivision of 'Qualla Boundary' Situated in Jackson County . . . on the North side of Soco Creek, and on Wrights Creek . . ." Approved February 14, 1876. 215 p. Marked "Original" and "Received with M. S. Temple's letter of Jan'y 13, 1876."
- (4) "Field notes of the survey of the Private Tracts of land in 'Qualla Boundary' . . . Situated in Swain County, on the waters of the 'Ocona Lufta' [sic] river and the 'Tuckaseege' [sic] river . . ." 33 p. Marked "Original" and "Recd with M. S. Temple's letter of Jan'y 13th 1876."
- (5) "Field Notes Made in running private Claims or Tracts, for White Citizens claiming adversely [sic] under State laws of N. C. Lands situated in Bird-town Township Swain County 'Qualla Boundary.' Surveyed in 1876 . . . Vol. 1." 35 p. Marked "Recd with M. S. Temple's letter of Sepr 18 1876."

89. Field notes of the survey of lands within Graham, Macon, and Cherokee Counties, N. C. owned by the North Carolina Band of Cherokee Indians and of subdivisions of lands situated in Jackson and Swain Counties as surveyed by M. S. Temple, 1876. Manuscript. 473 p. (including an index prepared in the GLO). 13 3/4 x 8. Notes bound as "Field Notes. Vol. 5. N. Carolina," are as follows:

- (1) "Field Notes Made in resurveying the Lands owned by a part of the North Carolina Band of Cherokee Indians and running a base line to connect the entire survey Situated in Graham and Cherokee Counties N. C. Surveyed in 1876 By M. S. Temple, Deputy Surveyor Vol. 1." Approved December 28, 1876. Manuscript. 153 p. Noted above title in different colored ink "Recd with M. S. Temple's letter of Novr. 10, 1876. Cheoah Country in Graham, Macon & Cherokee Counties North Carolina."
- (2) "Field Notes, Made in Sub-dividing into Farms the Lands owned by the North Carolina Band of Cherokee Indians. Situated in Jackson and Swain Counties N. C. 'Qualla Boundary.' Surveyed in 1876 By M. S. Temple, Deputy Surveyor. Vol. 1." For Vol. 2 see No. 86 above. Manuscript. 217 p. Marked "Original" and

"Recd with M. S. Temple's letter of Sept 18 1876."

90. "Field Notes of Survey of Lands Situated in Cherokee, Graham and Jackson Counties, North Carolina, for the North Carolina Band of Cherokee Indians in 1878. By M. S. Temple U. S. Surveyor" under contract bearing date of April 8, 1878. Approved October 19, 1878. Manuscript. 203 p. (including an index prepared in the GLO). 13 3/4 x 8. Marked "Recd with M. S. Temple's letter of Sept 23 1878." Bound as "Field Notes. Vol. 6. N. C."

91. Field notes of the dependent resurvey of a portion of the "Qualla Indian Boundary" in Jackson and Swain Counties and of certain tracts within the Cherokee Indian lands in Swain, Graham, and Cherokee Counties, N. C. Surveyed by Joseph C. Thoma, William L. Hagler, Lester S. Mann, Frank Robertson, and T. Nolan Canada, 1932-40. Approved 1932-46. Typescript. 720 p. (including an index prepared in the GLO). 14 x 8 1/2. In binder labeled "North Carolina Volume 7."

92 (a). "Field Notes of the Survey of the Boundary Line between the States of North Dakota and South Dakota from the Initial Point to the 190th Monument. The 7th Standard Parallel [through Ranges 47-78] West of the 5th Principal Meridian, as surveyed by Charles H. Bates, U. S. Deputy Surveyor, Under his Contract . . . Dated June 4th, 1891." Approved October 25, 1892. Manuscript. 184 p. 14 x 8 1/2. Label on cover Marked "Original" and "A." For map see "S. Dakota Exteriors," Vol. 4.

92 (b). "Field Notes of the Survey of the Seventh Standard Parallel Through Range No. 79 W. to Fractional Range No. 107 W. (all inclusive), which is the Boundary Line between North and South Dakota. From the 190th mile monument to the East Boundary Line of Montana . . . as Surveyed by Charles H. Bates, U. S. Deputy Surveyor, Under his Contract No. 5902, dated June 4th 1891 . . . Survey completed Aug. 17th 1892." Approved May 3, 1893. Manuscript. 169 p. 14 x 8 1/2. Label on cover marked "Original" and "B." For map see "S. Dakota Exteriors," Vol. 4.

93. Volume labeled "Field Notes of Symmes' Purchase, Ohio." Manuscript. 71 p. (including cover). 12 3/4 x 8. 2 sets of notes:

- (1) "Description and Notes of the Miami Survey." By Israel Ludlow, 1792. 31 p. Noted on title page "This survey was intended in conformity with Symmes' original contract. The boundaries of this having been altered by act of April 1792, Ludlow executed another survey in conformity with that act."

- (2) "Field notes of the Survey of part of the South;--the East, and the North, Boundary Lines of the Miami Tract, Contracted for by John Cleves Symmes and his Associates. 311, 682 28/100 acres, part of 1,000,000 acres." By Israel Ludlow, 1793-94. Manuscript. 39 p. Noted on title page "This is the Survey of Symmes's patent & makes part of Ludlow's Survey of the entire tract designated by Act of April 1792."

94. Volume bearing cover title "A survey of the Tract of Land Granted by Act of Congress to the French Inhabitants at Gallipolis [Ohio]. List of Actual Settlers, &c. Rufus Putnam's Letter, dated 12th May, 1796." Manuscript. Field notes (signed "Absalom Martin Apl 9th 1796." 139 p. 7 3/4 x 6 1/4. List, 3 p. 13 1/2 x 8. Letter, 2 p. 13 1/2 x 8.

95. "A Map of the Tract of Land granted by the Honble. the Congress of the United States to the French Inhabitants of Gallipolis [sic], divided agreeably to the Act, and according to Instructions from General Rufus Putnam into 1 Tract of . . . 4,000 [acres and] 92 Lots of 217 39/100 Acres [each]. . . Surveyed by Absalom Martin." Dated April 9, 1796. Manuscript on paper (bound in book form). 1 inch to 40 chains. 14 x 23 1/2.

96. Volume bearing cover title "Field Notes [descriptions of townships] of the Lands [in Ohio] of the Canadian & Nova Scotia Refugees." n. d. Manuscript. 27 p. 13 x 8.

97. Volume bearing cover title "Original Returns [township plats] of the Surveys [in Ohio], Appropriated by Law for Satisfying the Refugees of Canada and Nova Scotia." n. d. Manuscript plats. 1 inch to 40 chains. 7 plats, each approximately 12 1/2 x 14.

98. "Records, in Relation to the Surveys of Three Tracts of Land [in Ohio], Made for Ebenezer Zane, under an Act of Congress of May 17, 1796." Manuscript. The following records are bound in one volume with cover title as quoted:

- (1) Three plats with descriptions of boundaries as surveyed by Joseph Wood, Deputy Surveyor, 1797. 1 inch to 10 chains. 6 p. (including information on back of plats). 16 x 12 1/2. Each marked "A true Copy" and signed "Rufus Putnam S G."
- (2) Letter, dated Philadelphia January 13, 1800, from J. Brown to the Secretary of the Treasury regarding a road marked and opened by Colonel Zane. 3 p. (including cover sheet). 10 x 8.

- (3) Bond to the United States executed by Ebenezer Zane and James Ross. 2 p. 14 3/4 x 14. Cover sheet, 14 1/2 x 8.
- (4) Letter of transmittal for the above items. 1 p. Cover sheet, 1 p. Each, 9 3/4 x 7 3/4.

99 (a, b). "Field notes of a line run by order of the Commissioners appointed under the act of Congress of the 26th of June 1812, for establishing the western boundary line of the Virginia military reservation in the State of Ohio, laying between the Little Miami and Scioto Rivers." Surveyed December 1812. There is also a report of the Commissioners to Edward Tiffin, Commissioner of the GLO, in which Charles Roberts is mentioned as a surveyor. Dated Chillicothe, Ohio, December 28, 1812. Manuscript. (a) Field notes, 12 p. 8 x 5. (b) Report (which appears to be a copy), 3 p. 10 x 7 3/4.

100. "Original Field notes taken on the ground of a Meridian Line through the Virginia Military reservation, [1] from the lower side of the mouth of Eagle Creek a branch of the Ohio River to the little Miami River . . . [2] From Brush Cr[ee]k a branch of the Ohio River to the Indian Boundary line." Surveyed by Alexander Bourne, 1813. Manuscript. 2 vols. : (1) 102 p. ; (2) 84 p. Each, 3 1/2 x 6 1/4.

101. "Field Notes of the North & West Boundaries of Ohio . . .," including a random line running east from the southern extremity of Lake Michigan and true and random lines between the State of Ohio and Michigan Territory. Manuscript. 81 p. (including cover with title). 7 1/4 x 6. Marked "E" on cover. Notes are in the following order:

- (1) Boundary between the States of Ohio and Indiana from about the 89th mile near Fort Recovery north to the intersection of the line running from the North Cape of the Miami (Maumee) Bay to the southern extremity of Lake Michigan. Dated June 1-October 19, 1817. P. 1-22. 22 p.
- (2) Random line running east between the State of Ohio and Michigan Territory from corner No. 185 (map shows No. 186) on an extended line between the States of Ohio and Indiana to a point about 10 miles north of North Cape of the Miami (Maumee) Bay. Dated July 17-30, 1817. Marked in pencil "Harris' Random Line." P. 25-37. 13 p.
- (3) Line running west between the State of Ohio and Michigan Territory from North Cape of the Miami (Maumee) Bay to the northwest corner of the State of Ohio.

Dated August 1817. Marked in pencil "True Line by Harris." P. 39-54. 16 p.

- (4) Line running east from the southern extremity of Lake Michigan to the intersection of the line between the States of Ohio and Indiana south of the 173d mile corner. Dated June 29-July 16, 1817. P. 55-83. 29 p.

102. "Field Notes of the Northern Boundary of the State of Ohio; Surveyed agreeably with the provisions of the act of Congress of the 20th of May 1812, 'authorizing the President of the United States to ascertain and designate certain boundaries.'" Surveyed by John A. Fulton, October 1818. Manuscript. 3 sets of notes: (1) 22 p., 6 1/2 x 4; (2) 25 p., 9 3/4 x 7 3/4; and (3) 19 p., 9 3/4 x 7 3/4. Nos. 2 and 3 are indicated as copies.

103. "Field notes of the subdivisional survey of T 9 S R 9 E and Tps 9 & 10 S R 10 E. Mich: Meridian Ohio. --Toledo Marsh--Surveyed by Jno B. Marston D S under instructions from Commr G L Office of April 2 1881." Approved December 7, 1881. Manuscript. 2 volumes. Vol. A bears cover title quoted. Vol. B is without title; it is marked "Duplicate Office Copy." Each volume, 102 p. 7 1/2 x 4 1/2. Each volume is indicated as a copy of the original.

104. Field notes of the survey of the public lands lying between 36° 30' and 37° North Latitude and 100° and 103° West Longitude, known as the "Public Land Strip" and later a part of Oklahoma. Surveyed by Richard O. Chaney and William W. Smith, 1881-82, under contract dated August 26, 1881. Approved November 23, 1882. Manuscript. Volumes numbered 1 to 14 and affidavits and astronomical observations are as follows:

- (1) "Field Notes of the Survey of the Principal Base Line, Situated on the Parallel 36° 30' North Latitude From the 103° to the 100° Meridian West Longitude . . ." 191 p. 7 1/2 x 4 3/4.
- (2) "Field Notes of the Survey of the Cimarron Meridian, on the 103rd Meridian of Longitude West from Greenwich and extending from the 36° 30' to 37°th parallel of North Latitude . . ." 67 p. 7 1/4 x 4 3/4.
- (3) "Field Notes of the Survey of the First Standard Parallel North . . . of the Principal Base Line of 36° 30' North Latitude and [east of] the Cimarron Meridian [through Ranges 1-28 inclusive] . . ." 206 p. 7 1/4 x 4 3/4.
- (4,5) "Field Notes of the Survey of the 1st 2nd 3rd 4th 5th and 6th Auxiliary Meridians East of the Cimarron Meridian and . . ."

- [extending through Tps. 1 to 6] North of the principal Base line . . ." (4), 175 p.; (5), 90 p. Each, 7 1/4 x 4 3/4.
- (6-14) "Field Notes of the Survey of the Exterior Lines" of Tps. 1 to 4 N., Rs. 1 to 28 E., and Tps. 5 and 6 N., Rs. 1 to 8 E., inclusive within the Public Land Strip. Each volume contains an index. (6) 172 p.; (7) 182 p.; (8) 171 p.; (9) 180 p.; (10) 183 p.; (11) 181 p.; (12) 94 p.; (13) 86.; and (14) 209 p. Each approximately 7 1/4 x 4 3/4.
- (15) Affidavits of assistants in the survey of the Public Land Strip. 1881-82. 9 p., 12 1/2 x 8; 3 p., 14 x 8 1/2.
- (16) "Astronomical Observations and calculations for the determination of the 103^o W L from Greenwich, made near Las Animas, Bent Co. Colorado," by F. P. Levenworth in November and December, 1881. "Rec'd with Richd O. Chaney's letter of Sepr 11, 1882, transmitting returns of survey of the Meridian under joint contract of Richd O. Chaney & W. W. Smith bearing date Aug't 26, 1881." Approved November 23, 1882. Manuscript. 18 p. 12 1/2 x 8. Marked "Copy."
105. "Report [including astronomical observations and reductions and field notes] of the Oregon and Washington Boundary Survey" from the Columbia River to the Snake River. Executed by Daniel G. Major, Astronomer and Surveyor, 1863-64, under contract of April 25, 1863. Approved February 6, 1866. Manuscript. 196 p. 12 1/2 x 7 1/2.
106. "Astronomical and Barometric Observations Reductions and Field notes made in Establishing and Surveying the Boundary between Oregon & Idaho 1867" from the junction of the Snake and Owyhee Rivers due south to the northern boundary of the State of Nevada. Executed by D. G. Major, U. S. Astronomer and Surveyor, under contract dated October 1, 1867. Approved June 30, 1868. Manuscript. 150 p. 13 1/4 x 7 1/2.
107. "Field Notes of the Resurvey, Reestablishment & Remarking of the South 104 miles of the West Boundary of South Dakota [between South Dakota and Wyoming]. (Omitting the 57th to 81st miles, inclusive) by Edward F. Stahle, U. S. Surveyor. Under Contract . . . dated July 1, 1904 . . . Survey completed June 22, 1905." Approved November 1, 1905. Typescript. 115 p. 13 1/4 x 8 1/4.
108. Records of the United States and Texas Boundary as surveyed by John H. Clark, United States Commissioner, under the provisions of the act of Congress approved June 5, 1858. Five volumes as follows:
- (1) Title on backstrip "Texas Boundary Survey Triangulation & Topography (Copy)." Note attached "Book No. 9. Complete Copy of Field-work." Includes field notes, dated January 9, 1859, to September 7, 1860, and a "Letter From the Sec'y of Interior Transmitting in response to Senate resolution of Jan'y 6/82 The report of the Commissioner of the Genl Land Office upon the survey of the U. S. & Texas Boundary Commission." Manuscript notes, letter, and report (bearing editor's notes in pencil). 432 p. (numbered in pencil). P. 14-27, representing maps, not included. 9 3/4 x 7 3/4. Cover title for letter is noted "January 24, 1882. Referred to Committee on Territories and ordered to be printed." (See S. Ex. Doc. 70, 47th Cong., 1st sess.)
 - (2) "Computations of observations made on the survey of Texas boundary. John H. Clark Comr. &c." Manuscript. 126 p. 10 x 7 3/4. Marked "No. 14" on attached label.
 - (3) "Computations. Sextant observations survey of Texas Boundary made during the years 1859 & 1860. John H. Clark Commissioner &c." Manuscript. 390 p. 12 1/2 x 7 1/2. Marked "No. 15" on attached label.
 - (4) "Record of results for Latitude with Zenith Telescope by [William] Wurdeman, marking the parallels of 32^o and 36^o 30' North Latitude. Boundary between the State of Texas and the Territories of the United States. John H. Clark, Commissioner &c." Manuscript. 155 p. 15 x 10. Marked "No. 16" on attached label.
 - (5) Title on backstrip "Texas Boundary Survey. Astronomical Work." Labeled "No. 17." Includes astronomical notes dated 1859-60 and also letters, instructions, and reports, dated 1858-62, relating to the Texas boundary survey. Manuscript (bearing editor's notes in pencil). Approximately 650 p. Notes, 12 1/2 x 8. Other documents, 12 1/2 x 8 and 9 3/4 x 7 3/4. (See S. Ex. Doc. 70, 47th Cong., 1st sess.)
109. Records relating to the "Northwest Boundaries of Texas [by] A. D. Kidder, 1902-1903." The following records are bound in one volume with binder titles quoted:
- (1) "Observations and Calculations and Field Notes of the Establishment of the Point of

Intersection of the True 100th Meridian with the Red River . . . Arthur D. Kidder, Examiner of Surveys, General Land Office. Determination Commenced February 13, 1902. Completed April 16, 1902." Published. (H. Doc. 375, 57th Cong., 2d sess.) 117 p. 9 x 5 3/4.

- (2) "The Report of the Astronomical Investigation of the Texas, New Mexico, and Oklahoma Boundary Lines" as executed under instructions dated March 12, 1903. Published. (H. Doc. 259, 59th Cong., 1st sess.) 22 p. 9 x 5 3/4.
- (3) Diagrams showing relative positions of true corner monuments and meridians and parallel lines as compared with those established in previous surveys of the Texas, New Mexico, and Oklahoma boundary line. Manuscript. 2 p. 14 x 8 1/2.
- (4) Field notes of the astronomical observations and calculations for the establishment of astronomical points and of the retracement of the old 100th Meridian and a general report on the survey of the boundary line between the State of Texas and the Territories of Oklahoma and New Mexico, as executed under instructions dated March 12, 1903. Approved April 19, 1904. Manuscript observations and typescript report. 552 p., including photographs and an index to the 7 books. 14 x 8 1/2.
- (5) Opinion and decision of the "Supreme Court of the United States. No. 3, Original. --October Term, 1895. The United States Plaintiff, vs. The State of Texas In Equity." March 16, 1896. Published. 36 p. 13 x 8.

110. "Report [and field notes] Upon the Resurvey and location of the Boundary Line Between the States of Texas and New Mexico Same being the One Hundred and Third Meridian West from Greenwich from parallel of latitude thirty-six degrees thirty minutes north to parallel of latitude thirty-two degrees north, and the thirty-second parallel from said One Hundred and Third Meridian to the Rio Grande; as originally surveyed by John H. Clark in Eighteen Hundred and Fifty-nine and Sixty . . . G. D. D. Kirkpatrick, U. S. Surveyor & Ass't Supervisor, Lee S. Miller, U. S. Surveyor, and Robert S. Hunnicutt, Surveyor for Texas . . . 1911." Approved by Francis M. Cockrell, Commissioner on the part of the United States, and Sam R. Scott, Commissioner for Texas. Typescript, with attached photographs of boundary monuments and supplemental report dated February 20, 1913. 807 p. 13 3/4 x 8 1/2.

111. "Field Notes of the Re-establishment of Monument No. 1. On Clark's Thirty-second Parallel of North Latitude, Forming the Boundary Between Texas and New Mexico. Executed by Lee S. Miller . . . October 6th and 7th, 1911." Typescript notes and 1 manuscript plat. 10 p. 13 1/2 x 8 1/2.

112. "Report [including astronomical computations and field notes] of the Utah and Idaho Boundary [Survey] 1871." By Daniel G. Major. Approved April 15, 1872. Manuscript. 232 p. 12 1/2 x 7 1/2.

113. "Original Field Notes [including astronomical notes and photographic views] Of the Survey of the Boundary Line Between the State of Utah and Territory of Arizona as Surveyed by Howard B. Carpenter, U. S. Surveyor and Astronomer Under His Contract Dated October 13th, 1900 . . . Survey Completed July 1, 1901." Approved April 9, 1902. Typescript. 320 p. 13 3/4 x 9 1/2.

PART IV. PUBLISHED MAPS

Most of the published records described in this list were transferred to the National Archives in 1941 from the Division of Surveys (Division E) of the General Land Office. Others, especially some of the maps of the United States and individual States, were transferred in 1952 and 1955 from the Bureau of Land Management. The published records are arranged in three separate groups:

Group A -- special maps of the United States, States, and smaller areas, dating from about 1810 to 1946; Group B -- maps of the United States, States, and Territories, published intermittently by the General Land Office from 1873 to 1944, and Group C -- a few published maps of boundaries and maps relating to boundary surveys, dating from 1827 to 1926.

A. SPECIAL MAPS OF THE UNITED STATES, STATES, AND SMALLER AREAS

This group of published records represents some of the cartographic records issued by the Offices of the Surveyors General for the various States and Territories from the early 1800's and by the General Land Office from about 1836 to 1946. Included in this group are also a few photo-processed maps. The records are arranged under the United States as a whole and under the individual States by map number. They include maps, diagrams, and plats showing the status or extent of public surveys, land district boundaries, Indian reservations, national parks, oil and gas fields, lands designated under the provisions of the homestead acts, and other information.

B. STANDARD MAPS OF THE UNITED STATES, STATES, AND TERRITORIES

The maps described below were published intermittently by the General Land Office during the period 1873-1944. They show, in fairly uniform format, the extent of public land surveys; railroad lines; locations of land offices and of cities and towns; locations and boundaries of counties (on maps of States and Territories only), Indian and military reservations, and national parks, monuments, and forests; and other cultural and physical

data in the United States and in individual States or Territories. This chronological series of maps is of particular value in any attempt to reconstruct the development of public land areas in the United States.

Except for maps of the entire United States (which include insets of Territories and island possessions) and of the western United States, the

maps are arranged alphabetically by name of State or Territory and thereunder chronologically. Exact titles are omitted as they vary slightly from map to map.

The first column contains the date of publication. The second column indicates scale in inches to the nearest mile. The third column shows

number of sheets and approximate dimensions in inches to the edge of each sheet. In the fourth column "B & W" indicates a black and white base map, and "Color" indicates that one or more colors have been overprinted on the black-and-white base. For a few maps only the county lines are overprinted in color. Relief is sometimes shown in color and sometimes by hachures.

C. MAPS OF BOUNDARY SURVEYS AND INVESTIGATIONS

This small group of published records relates to boundary surveys dating from 1827 to 1926. It consists of a few maps of State boundary surveys and retracements and also of maps prepared as a result of investigations along the Red River concerning the Oklahoma-Texas boundary dispute. Most of the maps of the Oklahoma-Texas boundary survey were transferred to the National Archives from the Bureau of Land Management in 1959.

1. "Plat of the Northern Boundary line of the State of Indiana [between Indiana and Michigan Territory]. Surveyed in conformity to the Act of Congress 'To authorize the President of the United States to ascertain and designate the Northern Boundary of the State of Indiana.' passed March 1827." Surveyed in October 1827 by E. P. Kendrick, D. S. 1 inch to 160 chains. 9 1/2 x 77 1/2. Noted as "A true Copy of the Original plat in . . . Surveyor General's Office. --Chillicothe, 24th November 1827. Edwd. Tiffin, Sur. Gen."

2. "Diagram of the Boundary line between Michigan and Wisconsin, as run and established by Wm. A. Burt D. S. in the summer of 1847. under the 4th sec. of the Act. of the 10th of Aug. 1846. Showing also the connection therewith, of Township line surveys in Michigan, made by Wm. A. Burt, Austin Burt, and John Burt, in the summer of 1847. Surveyor Generals Office, Detroit Nov. 5th 1847. Lucius Lyon, Sur. Gen." 1 inch to 8 miles. 9 x 15 1/2.

3 (a). "Plat of the retracement of a part of the Florida-Alabama Boundary Line from cor. of Secs. 34 and 35, T. 1 N., R. 10 E., St. Stephens Mer., west to Perdido River. Executed by A. C. Horton Jr., U. S. Surveyor, January 20-31, 1911, under special instructions from the Comr. G. L. O., bearing date January 12, 1911." Approved October 31, 1913. 1 inch to 1/2 mile. 19 x 24.

3 (b). "Plat of the retracement of a part of the

Florida-Alabama Boundary Line, bet. Rs. 10 & 14 E., St. Stephens Mer., Ala. Executed by Chas. M. Pidgeon, U. S. Surveyor, January 20-31, 1911, under special instructions from the Comr. G. L. O., bearing date January 12, 1911. Approved October 31, 1913. 1 inch to 1/2 mile. 19 x 24.

4. "Plats of the Resurvey of Clark's Texas-New Mexico Boundary Lines by the U. S. Boundary Commission 1911." Surveyed by G. D. D. Kirkpatrick and Lee S. Miller, U. S. Surveyors. Approved by Francis M. Cockrell, Commissioner for the United States and Sam R. Scott, Commissioner for Texas. 1 inch to 1 mile. 10 plats and title page, each 23 x 19.

5. A series of maps prepared as a result of investigations along the Red River concerning the Oklahoma-Texas boundary dispute. Surveyed for the Department of Justice by Robert W. Livingston, U. S. Cadastral Engineer, under the direction of Arthur D. Kidder, Associate Supervisor of Surveys. Dated April 27, 1921, Department of the Interior, General Land Office, and authenticated by William Spry, Commissioner. For a report on the investigations see University of Texas Bulletin No. 2327: July 15, 1923, "Investigations on the Red River Made in Connection with the Oklahoma-Texas Boundary Suit. By E. H. Sellards, B. C. Tharp and R. T. Hill." 3 maps. (See Part II, No. 103, for related manuscript maps.)

- (1) "Relief Map Red River Oil Field Tps. 4 and 5 S., Rs. 13. 14 and 15 W., Indian Meridian Oklahoma." 1 inch to 30 chains (1,980 feet). 23 x 52.
- (2) "Contour Map Red River Oil Field Tps. 4 and 5 S., R. 14 W., Indian Meridian Oklahoma." 1 inch to 10 chains (660 feet). 36 x 52 (dissected into 2 sheets).
- (3) "Development Map Red River Oil Field Tps. 4 and 5 S., R. 14 W., Indian Meridian Oklahoma." 1 inch to 10 chains (660 feet). 36 x 52 (dissected into 2 sheets).

6. Maps of the Texas and Oklahoma boundary along the south bank of the Red River as surveyed by the Commissioners under the authority conferred by decree of the Supreme Court of the United States in the case of the State of Oklahoma, complainant, versus the State of Texas, defendant, and the United States, intervener, entered March 12, 1923. Each map bears the case number and term of the Supreme Court, the date of filing of the report of survey, and the authentication of Arthur D. Kidder and Arthur A. Stiles, Commissioners. 21 maps. (See Part II, No. 105, for manuscript maps.)

INDEX

This is an index to names of geographical areas, subjects, and personal names appearing in the quoted titles, annotations, and remarks in the descriptive entries in the list. A detailed area and subject index is given under the United States and under each State. Territories and States with the same name are indexed together; Dakota Territory and North and South Dakota, and Indian Territory and Oklahoma are indexed separately. Smaller geographical areas are also listed alphabetically.

Entry numbers consist of a letter for the part of the list, a State name if applicable, and a number for the particular map or field notes. The letters refer to the parts of the list as follows:

- M manuscript and annotated maps (part I)
- B boundary survey maps (part II)
- F field notes (part III)
- P special published maps (part IV A)
- SP standard published maps (part IV B)
- PB published boundary survey maps (part IV C)

Field notes are regularly listed after the map to which they relate. An asterisk after a number preceded by "F" indicates a map or plat rather than field notes.

The U. S. map on the facing page is included to assist in using the parts of the index referring to State boundaries.
