Poem - "I'm Tired" -

VINCENT FOSTER

Lisa (his widow), the rest of the family, the Clintons, various members of the Clinton Administration, and others now say that Foster took his own life. Why? because he was sick, because he was depressed, because he had a disease....

If Vince Foster took his own life, I agree it was because he was sick; he was SICK AND TIRED of:

1. Bill Clinton and Hillary Clinton;
2. The Clinton Administration;
3. The Culture of Deceit (which had been transported from Arkansas, and was being imposed on Washington, and the country);
4. The Blame Game (one of the Clintons' favorites; when things went badly, they "blamed" it on others, not admitting they had done anything wrong);
5. Political Correctness (decisions based on an ideology, not what was morally right or wrong, or legally required);
6. Unethical (if not illegal) Conduct.

Yes, Vince Foster was sick - SICK AND TIRED of: all of the above.....
