## INTRODUCTION

On the 413 disks of this digital publication, DN1929, are reproduced cases and reports, claims processed by, and general records of the Property Control Branch of the U.S. Allied Commission for Austria (USACA) Section, 1945–1950. These records are part of Records of United States Occupation Headquarters, World War II, Record Group (RG) 260.

## BACKGROUND

The U.S. Allied Commission for Austria (USACA) Section was responsible for civil affairs and military government administration in the American section (U.S. Zone) of occupied Austria, including the U.S. sector of Vienna. USACA Section constituted the U.S. Element of the Allied Commission for Austria. The four-power occupation administration was established by a U.S., British, French, and Soviet agreement signed July 4, 1945. It was organized concurrently with the establishment of Headquarters, United States Forces, Austria (HQ USFA) on July 5, 1945, as a component of the U.S. Forces, European Theater (USFET). The single position of USFA Commanding General and U.S. High Commissioner for Austria was held by Gen. Mark Clark from July 5, 1945, to May 16, 1947, and by Lt. Gen. Geoffrey Keyes from May 17, 1947, to September 19, 1950. USACA Section was abolished following transfer of the U.S. occupation government from military to civilian authority. This was marked by President Harry Truman's appointment of Walter J. Donnelly as Envoy (later Ambassador) to Austria and U.S. High Commissioner for Austria on September 20, 1950. Ambassador Llewelyn E. Thompson, Jr., succeeded Donnelly on July 17, 1952. The U.S. occupation government in Austria officially terminated on July 27, 1955, as a result of the State Treaty for the Re-establishment of an Independent and Democratic Austria, signed May 15, 1955. Most of the records of USACA, including those of the Property Control Branch, were retired to the Army records center in Kansas City until they were accessioned into the National Archives in the early 1960s.

The Reparations, Deliveries, and Restitutions (RD&R) Division of USACA Section was organized into branches. Initially, the Property Control Branch and the Monuments and Fine Arts Branch shared the division's work. However, by February 1946, the work of the Monuments and Fine Arts Branch was substantially completed, and it was disbanded. A new branch called the Reparations and Restitutions Branch was activated at that time to handle general restitution matters as well as any subsequent work related to monuments and fine arts. One additional branch called the German External Assets Branch was organized on October 12, 1946.

The organizational structure and policies used by the division were based largely on similar work performed by the Office of the Military Government, United States Zone (Germany)(OMGUS). The general posture of USACA policy in Austria, however, was intended to achieve a balance between the complete control exhibited by OMGUS and the cooperative atmosphere in the formerly occupied countries of northwest Europe.

The Property Control Branch was responsible for interpreting policy concerning the control of United Nations and German property in the U.S. Zone of Austria and ensuring the implementation of the Trustee Agreement. The branch was charged with maintaining liaisons with the Austrian Federal Ministry for Property Control and Economic Planning and the Zone and Land Civil Affairs Property Control Officers. Additionally, the branch negotiated interzonal movement of German-owned property with other elements.

### RECORDS DESCRIPTION

The records of the Property Control Branch of the Reparations, Deliveries, and Restitutions Division consist of 17 series described below.

**Reports on Trusteeships, 1945–1950** [A1, Entry 2001]<sup>1</sup>, consists of correspondence, memorandums, financial reports, military government forms, inventories, and audit reports relating to German assets transferred by the United States Forces, Austria (USFA) to the trusteeship of the Austrian Government.
